Let me tell you OUR STORY.

Here, at Fem Home, WE CARE.

We care for our clients and colleagues, we take care of each other and we care about our environment. This results in us not only taking **responsibility** for the quality of the products that we deliver, but also looking out for the **interest** of everyone we do business with.

That's why we strictly use **natural materials** of the highest quality, of which we know the exact **origin**.

That's why we take extraordinary **precision** and attention to detail very seriously in every facet of our business .

That's why our production takes place in **European** and local ateliers. That's why we speak to our colleagues, suppliers, and manufacturers **personally** and why we always make sure that they are treated fairly. And that's why we communicate in a **sincere** and transparent way.

With these **high standards** we developed our collection. Our cushions, throws, rugs and bed linen in soft natural colors are meant to shift life into a lower gear for a little while.

We want to lead by example. Showcase a **different** way of doing business. Responsible, **trustworthy** and honest. For us, that's only normal. This is who we are.

Our **EUCALYPTUS** yarn is
known & loved for...

- ... its **smooth** surface
- ... its incredible softness
- ... longlasting **shine**
- ... amazing **moisture management**
- ... being naturally **antibacterial**
- ... and its suitability to **sensitive** skin.

The material is not only unparalleled in its natural quality,
but also **responsible** in many ways, like ...

- ... the wood for this fibre comes from **sustainable** European forests
- ... 99,5 % of production solvents are recovered and re-used
- ... the fibre is completely **biodegradable**
- ... the production of eucalyptus requires only 2.8% of the **water** needed to produce cotton
- ... and our **responsible** dyeing process.

Eucalyptus COLOR BOX.

We have an extensive range of color options for our **eucalyptus** yarn...

... **87 colors** for Move Slow, Perfect Match & Chasing Light
... **61 colors** for At Random and Colour Me
... with a possibility to **mix your own** color
... and specific **custom** colors can be lab-dyed for orders of 12 m² and over.

Please contact us if you're interested!
We're happy to help and provide sampling.
