Transform your tablet into a powerful sales tool.

◄ 10" Tablet Shown

The CT300 is a complete tablet solution that turns a security challenge into a sales opportunity. It features 3-axis viewing, optional mobile POS device integration, and USB 2.0 ports that enable transactions wherever and whenever customers are ready. Auditing and unlimited mobility are possible with software control and rapid tablet undocking technology. CT300's tough and durable security stand makes it possible for tablets to be left unattended as self-service kiosks. The stand provides power and security to integrated tablets and mobile POS devices, and the ergonomic security frames accommodate 8" to 12" tablets.

InVue®

FEATURES AND BENEFITS

1 Rapid tablet undocking using InVue IR key or software control

2 3-axis viewing and optional mobile POS device integration

3 Stand available with two USB 2.0 connections to support peripherals and data connectivity

4 Mounting versatility with bolt, adhesive, or optional free standing base

5 Stands and frames are compatible with 8", 10" and 12" Apple, Android and Windows tablets

6 Supports integration with mobile POS chip and pin readers

7 Stand has a built-in alarm with battery backup that can be configured audible or silent and can send out alarm notification

8 Optional Gang Charger with security function capability allows up to 10 devices within CT300 frames to charge at once, five tablets and five integrated mobile point of sale devices

9 Ergonomic frames are available to support a single tablet or a tablet with mobile POS device, and all frames come standard with a hand strap, swivel capability, and the option to add an available shoulder strap (not shown)

10 Unique frame hinge allows mobile POS device to be forward facing, rear facing, secured in the frame, or removable by an associate
