

emplica

Innovative repair solutions for your plywood formwork.

Catalog 2013

Get more pours out of your formwork.

By repairing your formwork you can extend its lifecycle at low cost.

More benefit – less Costs

Extend the life of your formwork. With emplica repair systems you can boost the number of operations by up to 25 per cent. Emplica repair solutions provide a durable and ideal renewal of your valuable formwork.

Passion and experience -

More than 15 years of experience in plywood formwork and a passion for concrete construction have resulted in innovative production and development of repair solutions.

Research and development –

Our Research Center works together with all Producers of Formwork Boards to make sure you will always get the best and most efficient repair products. Improving existing methods is our goal. For your benefit.

Quality and Mission -

Our modern production emphasizes our value of highest quality materials made in Germany and Switzerland. Constant quality control assures a consistent level of our high demands.

Natural and eco-friendly -

The use of our products saves resources and labor. On top of that, we use FSC certified wooden boards and recycling granulate wherever possible.

The economic and mobile repair solution gives you advantages in your facilities and on construction sites.

Emplica is a highly innovative company that offers a repair solution for almost any formwork board.
