

## daviswear Blackline

### **Supplex** 230 g/qm

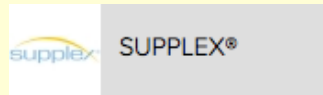

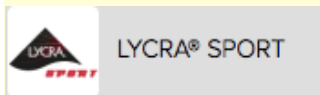

88 % PA - 12 % EA

(looks and feels like a heavy cotton-lycra fabric.

Special qualities: Muscle control, perfect fit, UV protection, breathable, soft, extra comfort, two-way stretch. For further explanations scroll to the bottom)

Thanks to the use of SUPPLEX® fiber by Invista this fabric is a soft caress on your skin - it puts together the pleasant hand feel of natural cotton and the performance and benefits of the most technologically advanced fibers. Furthermore, this fabric is breathable and fast drying.

Awarded Certificates:

### **Nilo** 145 g/qm

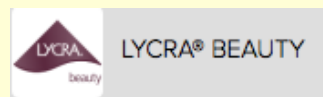

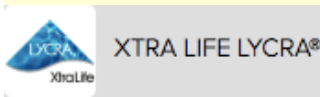

86 % PA - 14 % EA

(extremely soft. Looks and feels like a light weight cotton-lycra fabric. Luxurious non-glossy surface.

Special qualities: UV protection, breathable, pilling resistant, perfect fit, quick drying, soft, extra comfort, two-way stretch. For further explanations scroll to the bottom)

A light and soft, techno fabric ideal for the creation of extremely glamorous and elegant, reversible swimsuits. Boasting the LYCRA® BEAUTY certificate, Nilo is perfect for shapewear lingerie which enhances the silhouette without constraints.

Awarded Certificates:

### **Caresse**, 90 g/qm

80 % PA - 20 % EA

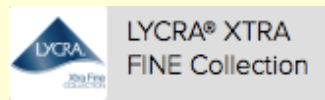

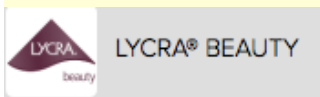

(Extremely soft and fine. Feels similar to microfiber soft.

Special qualities: Soft, ultra flat, feather weight, extra comfort, perfect fit, excellent coverage, shape retention, two-way stretch. For further explanations scroll to the bottom)

Caresse, soft and silky, embraces the body with its soft and delicate touch. Caresse meets all the strict requirements set by the innovative LYCRA® Xtra Fine Collection Fiber program being consequently awarded a prestigious certificate that means this fabric is the perfect mix of purity, simplicity and style. Refined, stretch and comfortable, it was designed to fit your body perfectly.

Ultra-light, soft and silky circular knitted fabric designed for the creation of sophisticated and elegant underwear. Caresse ensures a perfect fit and excellent breathability and will always make you feel fresh and comfortable under any circumstances.

Awarded Certificates:

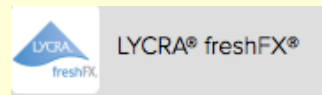

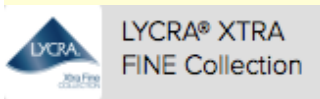

## **2.Skin Extra Light** 55 g/qm

72 % PA - 28 % EA

(extremely light and fine. Similar to the 2nd Skin extra light we used to have in our program but even lighter. Sheer, non glossy. Feather weight, breathable, ultra flat, perfect fit, pilling resistant, extra comfort, soft, two-way stretch. For further explanations scroll to the bottom)

A high gauge, techno-fabric, impalpable, intriguing, sensuous, and sophisticated which is not only ultra-light (just 55 g/m<sup>2</sup>) but also soft and pleasant. It embraces your silhouette making you feel cool, protected, and comfortable throughout the day. It is ideal for sexy, funky underwear.

Awarded Certificates:

## **Vertigo** 215 g/qm

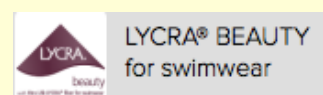

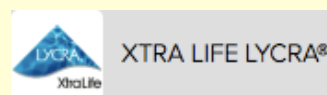

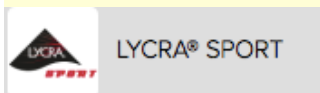

74 % PA, 26 % EA

(Soft like Microfaser Soft but with extra support feature to shape and support where it's needed most. Elegant non-glossy surface. Ultra chlorine resistant, UV protection, pilling resistant, breathable, muscle control, excellent coverage, perfect fit, extra comfort, two-way stretch. For further explanations scroll to the bottom)

The perfect mix of technology and charm, performance and creativity. This fabric features excellent stretch and a high shape retention power and is perfect for shaping swimwear. Made out of XTRA LIFE LYCRA® elastomer, it is more resistant to chlorine, sun cream and UVs. It is also perfectly suited for sensuous lingerie which remodels your silhouette, right where it is needed.

Just one word standing for style, comfort and efficiency: Vertigo.

Awarded Certificates:

## **Wetlook Venezia** 140 g/qm

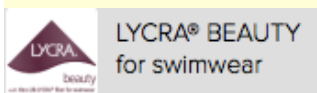

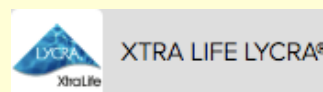

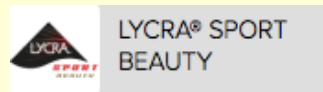

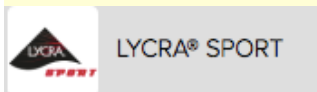

76 % PA - 24 % EA (Xtra Life Lycra ®)

(Softer and lighter than regular lycra with a wonderful glossy wetlook shine. Ultra flat, feather weight, extra comfort, perfect fit, excellent coverage, shape retention, two-way stretch. For further explanations scroll to the bottom)

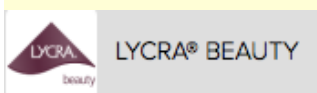

Featuring a unique surface glimmer and an extra-glamorous wet look, Venezia is a brand-new fabric for fashion beachwear and stylish underwear. This fabric perfectly blends style and comfort together with a perfect fit. Thanks to the XTRA LIFE LYCRA elastomer, Venezia is ideal for the creation of both beachwear and swimwear to be worn on the beach or at the swimming pool since it ensures a high resistance to chlorine, suntan creams and oils and makes your swimsuits live much longer. The prestigious LYCRA beauty for swimwear and LYCRA beauty certificates testify to the fact that this fabric also offers the extra benefit of efficient shaping properties and is therefore also suitable for the creation of sophisticated lingerie items. Perfect for creating trendy garments.

Wear Venezia and enjoy being in the spotlight!

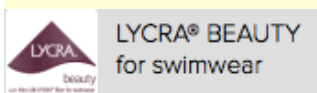

Awarded Certificates:

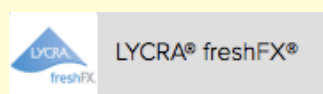

## Description of the Certificates

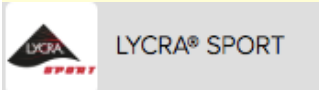

LYCRA® BEAUTY fabrics improve the effectiveness of shape wear and expand the range of options available to those who want that secret advantage.

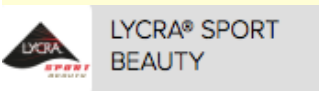

LYCRA® BEAUTY fabrics for swimwear meet XTRA LIFE LYCRA® fibre standards to resist suntan lotion, body oils, UV exposure, and chlorine, for long-lasting beautiful shaping at the pool or at the beach.

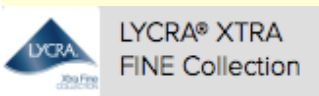

Fabrics that ensure freshness and breathability, softness, and comfort feeling all day long.

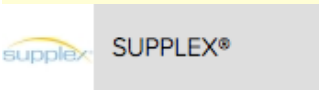

Fabrics with LYCRA® SPORT brand support athletes in their sporting activities: They deliver a range of stretch and recovery power, help athletes move and perform at their best.

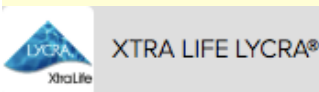

LYCRA® SPORT BEAUTY fabrics feature a high shaping power without compromising on freedom of movement and comfort, two characteristics that are fundamental when practicing sports. They therefore remodel your silhouette while looking absolutely stunning.

LYCRA® XTRA FINE Collection Fiber is an innovative program of Invista Laboratories that certifies the union of purity, simplicity, and elegance. Those fabrics are refined and stretch, are light with silky touch, ensure perfect fit along with maximum comfort.

Invista's SUPPLEX® fabric offers consumers the feel of cotton with the benefits of advanced fiber technology.

A natural polyurethane fibre (synthetic rubber) resistant to attack by active chlorine.

## **Special Qualities**

### **Muscle control**

Fabrics that assure right muscle compression during physical activity, reducing lactic acid formation.

### **UV Protection**

A fabric's ability to offer high protection from UV rays (UPF 50+ is the maximum value obtainable)

### **Ultrachlorine resistant**

Fabric that is considerably resistant to attack by active chlorine.

### **Ultra flat**

Very thin fabric (50% thinner than classic charmeuse)

### **Perfect fit**

The fabric elasticity conforms to the body without being constricting, allowing the best freedom in movement.

### **Pilling resistant**

Fabric that is always smooth and pleasant to the touch. Tests demonstrate that it resists abrasions and pilling with the highest value of 5.

### **Breathable**

Fabric that absorbs sweat and allows its natural evaporation.

### **Excellent coverage**

Fabric provides outstanding coverage without risk of see-through.

### **Extra Comfort**

Fabric that fits pleasantly without constraining, ensuring freedom in movements.

### **Feather Weight**

Lightweight Fabric.

### **Shape Retention**

Garments that maintain their shape even after several uses.

### **Soft**

Soft fabric, pleasant to the touch.

### **Two-Way Stretch**

Fabric which stretches in both directions - vertically and horizontally.

### **Quick drying**

Fabric that dries quickly, removing the unpleasant wet sensation on the skin, avoiding irritating rubbing.
