

mySpot

Pocket-Sized Wi-Fi Connection

- Create your own secure Wi-Fi network
- Ultra-compact design fit for travel
- Perfect for hotels, conferences and classrooms

One Ethernet. Multiple Devices.

Kanex mySpot is a travel-sized solution designed for travelers who experience spotty Wi-Fi signals in hotel rooms or conferences. It lets you create a simple Wi-Fi connection for your devices by plugging into a USB power source and an Ethernet connection.

Travel with Peace of Mind

With this sleek, compact all-in-one design there is no sacrifice in space. mySpot fits neatly in your pocket, purse, carry on, or luggage. Watch it become an essential piece of gear for every business trip you take.

USB Powered

Simply plug into your laptop's USB port or any outlet to power mySpot.

Secured Private Network

Set up your own private, unclogged Wi-Fi network for you and your guests. Protect and secure your connection by adding a password.
