LOUNGE-BOOK is the inno-vative notebook support to be used in total ease by laptop PC users home and away. A new digital-life experience which integrates technology and domestic habits, affording users the full freedom of portable technologies.

Our product aren't a simple accessory but an innovative solution that will help you use a notebook in complete relax wherever you want: in an armchair, on the sofa, on a chaise-lounge or even better in bed.

Lounge-book allow to prevent health problems and overcome physical limits due to wrong positions or a too long use.

Internet and the technological evolution offer new possibilities of digital-life:  
Lounge-book is a new philosophy to live in a more natural way.

LOUNGE-TEK was established to produce and sell the Lounge-book. Since its inception, the company has built up a reputation for optimizing organizational processes using the finest web technologies. The firm's investments are channelled not so much into producing "special effects" but into providing new tools for evaluating the product's usefulness and enhancing its overall value. This involves finding the best way to transfer the solution to the customer at the lowest possible price.
