

Barrier cream for protection against water based contaminants «Riza Aqua Protect»

Effective Protection against water based contaminants which include salt, acid and alkali solutions. Prevents different professional skin diseases and chemical stings (starting from a little excitation, redness, cracking and up to malignant dermatitis, eczemas and stings).

Active against water-soluble contaminants:

- alkalis, saline and acid solution;
- lubricating coolants;
- detergents and disinfectants;
- lime;
- cement;
- fertilizer.

Product features:

- **Generates a protective layer on the skin without preventing it from breathing freely;**
- **Provides a high water-proof effect proved by independent clinical testing;**
- **The product efficiency is proved by independent laboratory investigations;**
- **The product is completely safe and doesn't provoke allergic reactions that is proved by independent European laboratory;**
- **Economical** consumption per use;
- The product effect lasts **4 hours and longer** according to inner tests by Skincare;
- The product can be used **for hands, face, body;**
- **Suitable for all kinds of skin;**
- Quick absorption, easy distribution, no sticky after-feel;
- **Riza Aqua Protect** contains a unique ingredient **RonaCare®AP**. Its cascade action results in **enhancing self-effect over time improving skin protection from impurities and oxidation.**
- **Riza Aqua Protect** is a **rich complex**:
 - **Complex of A, C and E vitamins** restores and moisturizes.
 - **Aloe leaves extract** is applied as a moisturizing, soothing, softening and anti-inflammatory agent, affecting skin with an excellent effect of activating its local immunity.
 - **Riza Aqua Protect** contains a **strong antioxidant – the urea**, strengthening a protective skin layer, moisturizing and healing the skin, being a natural **exfoliator**.
 - Contains innovative plant **antioxidants**, preventing skin oxidation and enhancing self-effect over time.
 - **Bee wax** - a bioactive agent, softening and preventing skin dehydration;
- The cream contains **Panthenol** – a strong wound-healing, moisturizing agent;
- **Natural essential oils** provide a unique perfume composition of Riza;

- Free from silicone, chemical dyes and aromatics, provoking allergy;
- The product is **free from parabens**.

Usage:

Apply a little quantity of cream (0,5-1 ml) in circular motions on clean and dry hands before work. Pay special attention to areas between fingers and fingernails. Apply cream on body and face if necessary. After work add some water and Riza Premium Handwash liquid soap, foam gently and rinse it off. Intense contaminants removal is provided by cleansing products of Riza series.

Consumption:

0,5-1 ml per use.

Packing features:

Every tube has a **first break control that guarantees the microbiological safety of the product and prevents vandal actions**.

Riza tubes have a **unique pleasant texture**, but moreover they bear a function **to assist workers** due to the **bold points texture on tube sides which help to improve grip**.
