

3Dee

Made for movement. Just like you.

3Dee

Active Office Chair

- 1) 3D technology:** Gives you flexible sideways motion, extends your reach and ensures an optimum sitting posture with respect to the working surface. This keeps your intervertebral discs, muscles, tendons and joints fit.
- 2) Vertical movement:** Relieves the intervertebral discs and stimulates the blood circulation and your oxygen flow.
- 3) Patented backrest technology:** The half-height backrest with lamellar technology and physiologically shaped backrest provides support without restricting motion.
- 4) Multi-zone integral foam:** The intelligent seat is slightly convex, upholstered with breathable foam and has an adaptable flexzone at the front edge.

Setting options

- Seat height (gas spring)
- Weight (spring hardness / up-and-down movement)
- Flexible sideways movement
- Backrest tension
- Lumbar support (backrest)

Many advantages. Simply good.

- Acts against static and rigid sitting
- Improves sitting posture
- Relieves and strengthens the back
- Strengthens and exercises muscles
- Nourishes intervertebral discs
- Stimulates blood circulation and lymph flow
- Ergonomically optimized backrest for relaxing

3Dee

Individual. Where demands are high.
