

## PROFESSIONAL SPORT MOUTHGUARD

### Why individually fabricated Playsafe sports mouthguards?

Playsafe sports mouthguards fit exactly onto the teeth, do not move and allow to breathe freely and to speak normally.

Many scientific studies show that a Boil & Bite mouthguard provides a false sense of protection due to the dramatic decrease in thickness when the athlete bites it into place during its softened state (biting through).

### Playsafe mouthguard is always multi-layered:

Two- or three-layered sports mouthguard many colours are available for your

#### Playsafe heavy-pro:

1. Base, flexible (2.0 mm)
2. Reinforcement, hard (0.8 mm)
3. Cover layer, flexible (4.0 mm)

### When Play safe mouthguards two- or three layered

Playsafe triple is suited for all sports.

The hard inter layer comprises the whole guard.

Highest protection with smallest extent.

A little bit harder than the Playsafe heavy-pro.

The Playsafe types are chosen for specific sports.

### Field Hockey • Rollerblading Squash • Polo • Ice Hockey • Karate • Kickboxing Rugby etc.

In case of hard and pointed impacts.

Every Playsafe mouthguard is fabricated for you by a trained person according to the Playsafe guidelines.

What we need for making the professional two and three layer mouthguard.

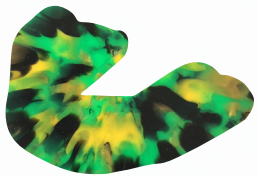

When the athlete has permanent teeth we need an impression of the upper and lower jaw.

When child's teeth, primary teeth, begin loosen to make room for permanent teeth we need only impression of the upper jaw.

When your patients has brackets we need also impression of the upper jaw, for making an play safe mouthguard two layer.
