POWERplus® BubbleLight SOLAR GARDENLIGHT

The POWERplus BubbleLight is a high quality designer garden light. The bubbles in the acrylic glass top create a stunning effect at night.

The highly efficient solar cell is integrated in the acrylic glass, so optically you cannot see this is a solar powered light.

The Bubble Light is made of the highest quality materials including stainless steel and acrylic. Integrated daylight sensor for automatic switching on/off.

Integrated high efficiency solar cell

Stainless steel construction

Inbuilt daylight sensor for automatic on/off
