BELGIAN COMPANY

---

## ABOUT US /

As a brand that is in touch with time, Belgian Company (BC) strikes the balance between style and function. You put on its easy well-cut basics in the morning, only to realize in the evening you have been wearing them all day long. Whether worn at home relaxing or out and about, they simply make you feel good.

The range offers a cozy, straightforward, hybrid collection with athletic details that bridges the gap between home wear and contemporary sports & street wear. If it feels like they have been a part of your free time wardrobe for a long time, that may be because they have been literally designed at our home.

BC is a mature quality brand made of natural materials that feel both soft and strong, carefully selected for the purest comfort. For genuine moments; for 'easy living'. Created to share those moments that really matter with the ones you love. Created to enjoy your free time even more.

Belgian Company - with a heart for fashion - is designed in fashion capital Antwerp, and - with respect - manufactured in Portugal
