## R TAPE RELEASE LINER ADHESION (RLA™) PERFORMANCE FEATURES

R Tape Products upgraded with RLA technology have improved adhesion to paper or film release liners, yet maintain the specified adhesion level to the vinyl or printed graphic. R Tape RLA Premasks anchor themselves to the release liner for superior lay flat to prevent tunneling and edge curling of stacked or rolled graphics. Some R Tape RLA products significantly reduce the need for heat and vacuum process after lamination.

## APPLICATIONS

• Protective tape for large wide format digital graphics / PRINTED and UNPRINTED vinyl graphics.
• Application tape for large sized graphics.
• Application tape for stencil film.
• Provides easy, clean removal from large printed or vinyl surfaces.
