History

faytech's roots lay in Germany. Arne Weber, the founding manager of faytech, started to develop and market electronic devices in 2001. Later in 2006, the today called faytech Service GmbH started to import touchscreen displays in Germany. Within three years, the German corporation became the leading touchscreen supplier in Germany in this niche.

Based on the early success, Fan Yang joined faytech. After that the management team moved to Shenzhen to start its own production facility in China. By doing this the company now combines German quality and development know-how together with Chinese sourcing and manufacturing competencies. In 2009, faytech Tech. Co., Ltd. was founded and Fan has been leading the company since then as a founding manager.

In 2010, faytech began to produce touch PCs in its own factory for the first time. Today all offered touch devices are solely designed and manufactured by faytech. produced on its own ISO 9001:2008 certified production lines, following strict German quality guidelines and expectations. faytech's marketing strategy is to deliver the best price/quality ratio in the industrial and B2B touch device market.

faytech responds to the demand of more and more powerful systems by using fay-002 Intel® E3800 series mainboard. The fay-002 series follow the highest industrial PC standards and provides stable performance. Powered by Intel® Dualcore N2807 and Quadcore J1900 processors based on Silvermont architecture, they deliver respectively 2 x 1.58 GHz and 4 x 2 GHz CPU frequency, which significantly improve the performance of touch PCs equipped with them. The Intel® graphic chip adds stronger graphic performance. On top of that, all of these are compacted in a fanless design!

With USB 3.0 and the support of up to 8G RAM, the faytech's mainboards set new standards in versatility again. Fanless, with such a small footprint, there is no other IPC mainboard on the market offering so many connectors: 2 x Mini-PCIe, 1x PCIe, SPDIF, Mic-in/Line-out, 2 x 2w amplifiers, 2 x Realtek PCIe Gb LAN 8111G, 7 x USB 2.0, etc. There should be no industrial application where faytech mainboard is not competent for!

FAY003

 $\ensuremath{^*}$: The mainboard shown is a version with Wifi, Bluetooth and GPS.

For whom the Intel® Celeron™ J1900 QuadCore CPU is not powerful enough they can speed further up. After extensive testing faytech released its Intel® i5-5200u Core based mainboard into standard production. Powered by Intel® i5 ULV (ultra low voltage) processor i5-5200u, it delivers both the stability and performance, which is required for demanding operations in industrial and retail environments.

Embedded A20 Mainboard

At the end of 2013, faytech started its embedded mainboard. Based on the several projects done in 2014, we launched the second version of our embedded mainboard. We currently provide two embedded mainboards - Embedded A20 Mainboard with high price-performance ratio, and Embedded V40 Mainboard with outstanding capability.

There are currently two versions for the A20 and V40 mainboards: The standard version with W-LAN and the full version with additional Bluetooth 4.0 (2.0 for A20), GPS, POE Plug-in and OTG port. These are faytech's most cost effective yet powerful Dualcore and Quadcore solutions for Linux or Android based platforms.

15"-22" Resistive Touch Monitors

faytech's 15" to 22" Touch Monitors make your working process easier and more efficient. These monitors are packed with features and connectors that make them perfect for any industrial or commercial application. Each Touch Monitor is produced using an industrial LCD panel with backlighting (30,000+ hour lifespan), 5-wire resistive touch and anti-glare coating to enhance the user's experience and of course includes faytech's 100% guarantee of no defective pixels. The 15"-17"-19" models have VGA and DVI-D connectors, with additional S-Video and HDMI connections added to the 22" version. Each monitor comes with its own desktop stand, and screw patterns on the back for VESA 100 mounting, so it can be used in a variety of configurations for industrial and commercial environments.

The high-resolution support (e.g. 1080p, 1920×1200 pixels) of these faytech Touch Monitors make them the perfect choice for a wide variety of applications including use in POS systems, as control panels in the industrial area, in kiosk systems, for machine control, in the office and in many other fields.

The integrated touch panel is robust and accurate. The touch function is quickly established via the USB port of your PC, and industrial users can connect the touch function through the serial port. faytech includes touchscreen drivers for popular Microsoft (CE, WinXP, Vista), Mac and Linux operating systems. For Win7, 8 and 10 operating systems no driver installation is needed because of the MER4485 chipset used in faytech's in-house designed touch controller. The chipset supports login using a virtual keyboard and the immediate use of windows gestures. This makes starting and using Windows 8 or 10 incredibly easy.

Customization is available for project customers (e.g. higher brightness, brightness sensor, IP protection classes, integrated power supply, webcam, scanners, printers, capacitive and SAW touch panels, etc.)

faytech's Capacitive Touch Monitor series has a modern sleek look with its flat edge to edge glass front panels, and a patented silicone rubberized seal making the front panels IP65 water- and dust proof.

This new series comes with capacitive 10-finger multitouch, glass front reaching MosH 7, the glass surface is anti glare treated (chemical etched), a wide variety of connectors including USB-B for touch, HDMI, DVI-D, VGA and audio inputs, all lockable including the DC-IN. Each capacitive Touch Monitor has an A+ industrial LCD panel backed by faytech's 100% no dead pixel guarantee. Each monitor from 13.3" and up comes with its own desktop stand, and screw patterns on the back for VESA 100 mounts.

The high resolution support (e.g. 768p, 1920×1200 pixels) of these faytech touch devices make them the perfect choice for a wide variety of applications including POS systems, as control panels in industrial fields, in kiosk systems, for office/residence automation and many other areas.

The projected 10-point capacitive touch panel is accurate and responsive. The touch function is quickly established when connected via USB port. faytech includes touch drivers for popular OS (Win CE, XP, Vista, 7, 8, 10), Mac, Android and Linux. Normally, no touch driver needed for Win 7, 8 and 10. The virtual keyboard and Windows gesture makes Windows convenient to use. Besides, embedded systems, such as Raspberry Pi, are supported as well.

For industrial and outdoor applications in harsh environments, faytech provides 7"-15" IP65 High Brightness Touch Monitors.

These are perfect solutions for such applications because of the following advantages:

- Increased brightness (all have at least 1000 Nits brightness)
- IP65 protection for the entire device
- All-in-one cable solution, with HDMI or VGA video connection, USB for Touch and a 8-36V power supply.

On the front of the device, there are two buttons for adjusting brightness (5 levels available). On the back of the device, VESA 75 or VESA 100 mounting ensures solid fixation even in the harshest environments.

For projects, following customizations are available

- All-in-one cable, e.g. VGA, HDMI, Video, DVI, S-Video, Audio, Power supply, Voltage range, USB or Serial port for touch
- Case color, logos, housing and fixation
- Rail and/or VESA 75, VESA 100 on the back of the device

faytech's Capacitive PC series stands out among competition with its fanless silent operation, IP65 front panel design, high reliability and fine craftwork.

The Touch PC features a sleek modern appearance. Flat edge to edge glass with patented silicone rubberized seal makes sure the front panel is water- and dust proof to meet the IP65 standards. The aluminum back case, manufactured out of a continuous casting mold, provides stable VESA 100 fixation, and various connectors e.g. four serial ports, eight GPIOs or USB 3.0.

The heart of Capacitive Touch PC series is fay-002 industrial mainboard powered by Intel® Celeron™ J1900 QuadCore processor with up to 2.42 GHz frequency, 4G RAM, 64G SSD and Intel®'s HD Graphic chipset, supporting Full HD, Direct X 11.1 and OpenGL 4.0.

The capacitive touch panel is inhouse developed by faytech's experienced engineers. Antiglare chemically etched surface treatment, 10-finger multitouch and unlimited touches without failure on the touch panel are class leading features. Behind that touch panel is a faytech's A+ LCD panel, ensuring that there is not even a single sub-pixel defect. As an option, customers can choose optical bonding and high brightness panels to further enhance the using experience of the product.

faytech's Capacitive Touch PCs provide best performance and stability during long term operation in present demanding manufacturing, commercial, and retail environments.

1x VGA pin header; 1x SIM-card-Header (connected to MiniPCle); 1x LVDS connector
1x S/PDIF output pin header; 1x 8-bit Digital I/O interface
1x 4-pin (2x2W) audio amplifier connector
1x PS/2 keyboard/mouse connector (6-pin)
2x USB 2.0 header supports additional 4x USB 2.0 ports
3x RS232/RS485 COM connectors, switchable between RS232/RS485 in BIOS
1x Chassis Fan connector

External Connectors
1x Display port; 1x VGA-out (from internal header)
1x USB 3.0, 3x USB 2.0 ports
2x COM port Full-PIN (RS232/485; 5V/12V)
2x 10/100/1000Mbit RJ45 Ports; 2x W-LAN connector; 1x 12V DC-In (screwable)
S/PDIF-Out (1x Cinch, 1x Torx)
MIC-In, EAR-Out; 8x In/Out GPIO as RJ45
1x Button-Line with On/Off + 4 GPIO-buttons on front panel

1x 2.5" module slot, changeable SSD included

2x Mini Card slots with PCIe and USB interface (2x Full Height/Half height changeable) 1x PCIeX1 Straddle connector Included in the Delivery Power Supply (see Power section) Driver DVD Short Installation Manual

Internal Connectors
1x SO-DIMM Slot, max. 8GB, DDR3L-1333 Single channel memory
1x 12V DC power connector (2-pin); 1x 4-pin SATA power connector
2x S-ATA 3GB/s ports; 1x 5-pin LCD power connector
1x VGA pin header; 1x SIM-card-Header (connected to MiniPCIe); 1x LVDS connector
1x S/PDIF output pin header; 1x 8-bit Digital I/O interface
1x 4-pin (2x2W) audio amplifier connector
1x PS/2 keyboard/mouse connector (6-pin)
2x USB 2.0 header supports additional 4x USB 2.0 ports
3x RS232/RS485 COM connectors, switchable between RS232/RS485 in BIOS
1x Chassis Fan connector

1x Display port; 1x VGA-out (from internal header)
1x USB 3.0, 3x USB 2.0 ports
2x COM port Full-PIN (RS232/485; 5V/12V)
2x 10/100/1000Mbit RJ45 Ports; 2x W-LAN connector; 1x 12V DC-In (screwable)
S/PDIF-Out (1x Cinch, 1x Torx)

MIC-In, EAR-Out; 8x In/Out GPIO as RJ45

1x Button-Line with On/Off + 4 GPIO-buttons on front panel

1x 2.5" module slot, changeable SSD included

Included in the Delivery Power Supply (see Power section) Driver DVD

1x PCIeX1 Straddle connector

2x Mini Card slots with PCIe and USB interface (2x Full Height/Half height

W-LAN Antenna

Available in two standard versions with just W-LAN or with W-LAN, Bluetooth 2.0 / 4.0 and integrated GPS, and OTG-port. They are faytech's different cost effective yet powerful solutions for various clients. On top of that, we even have WinCE-BSPs for project partners.

Powered by Embedded A20 Mainboard of high performance/cost ratio or more powerful Embedded V40 Mainboard, faytech's Embedded Touch PCs are the best solutions to industrial automation, device control and digital signage. A powerful Allwinner A20 DualCore or V40 QuadCore CPU, Mali400MP2 graphics chipset, various connectors, e.g. USB, serial, network, TTL/UART, Mini-PCIe, HDMI, VGA, GPIO, LVDS and extended DC-in, all that makes the Embedded series perfect choice for reliable solutions.

The Embedded PCs are equipped with 1G DDR3 RAM, 8G flash memory and includes a SATA connector as well as SD card slot for further storage expansion. As for network connection, the device is already integrated with Wifi, over Mini PCIe the device can be upgraded to 3G+GPS using the existing SIM card slot.

The touch features capacitive 10-finger multitouch panels, Anti-glare chemical etched treatment and optionally bonded to the LED backlighting panels, backed by faytech's warranty for pixel accuracy (A + quality).

The design of the Embedded Touch PCs follows the application: flat easy to integrate IP65 front and stable rear housing with either VESA 75 or VESA 100 mounting for fixing / integration.

faytech's new Embedded Touch PC Series is our most cost-effective solution for intelligent machine control, and like all faytech's reliable touch devices built for precision and durability.

Power Indicator	Green LED		
Power Supply	100-240V ACDC active switching; 12V DC-Out		
Working Power (V)	12		
Power Consumption (W)	25		
Stand-By Consumption (W)	<0.5		

Internal Connectors
1x SO-DIMM Slot, max. 8GB, DDR3L-1333 Single channel memory
1x 12V DC power connector (2-pin); 1x 4-pin SATA power connector
2x S-ATA 3GB/s ports; 1x 5-pin LCD power connector
1x VGA pin header; 1x SIM-card-Header (connected to MiniPCle); 1x LVDS connector
1x S/PDIF output pin header; 1x 8-bit Digital I/O interface
1x Line-Out / Mic-In audio pin header
1x 4-pin (2x2W) audio amplifier connector
1x PS/2 keyboard/mouse connector (6-pin)
2x USB 2.0 header supports additional 4x USB 2.0 ports
3x RS232/RS485 COM connectors, switchable between RS232/RS485 in BIOS
1x Chassis Fan connector

External Connectors
1x Display port
1x USB 3.0, 3x USB 2.0 ports
1x COM port Full-PIN (RS232/485; 5V/12V)
2× 10/100/1000Mbit RJ45 Ports
1x 12V DC-in
1x 2.5" module slot, changeable SSD included

Expansion slots	
2x Mini Card slots with PCIe and USB interface (2x Full Height/Half height changeable)	
1x PCIeX1 Straddle connector	

Included in the Delivery
Power Supply (see Power section)
