## E-learning - Blended learning - Autonomous learning

*"You know best what you know by yourself"*

Blended learning delivers at least in part content and instruction via digital and online media and combines it with face-to-face classroom methods. Mostly students activities are recorded (time, place, path, or pace). It guarantees also more efficiency in professional development and training settings.

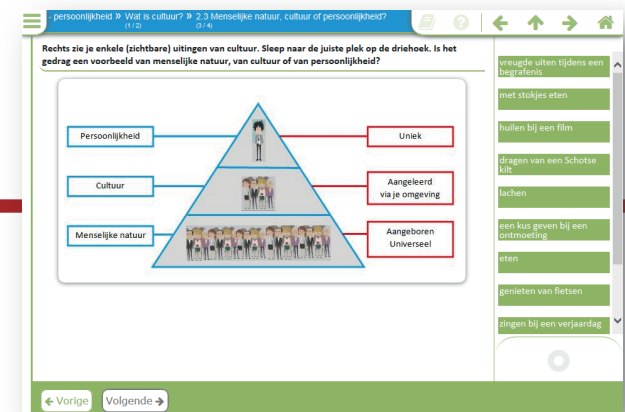

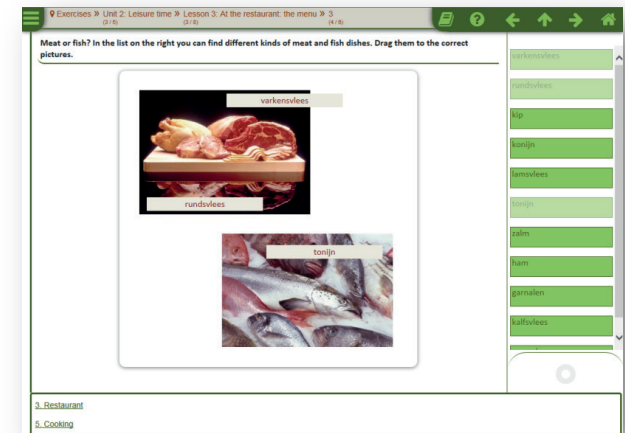

### Focus on What You Do Best

*"Ask CommArt Int. to create your own multimedia 'cloud' hosted always up-to-date e-learning module, in collaboration with CTL-UHasselt."*

Info: [info@commart.eu](mailto:info@commart.eu)

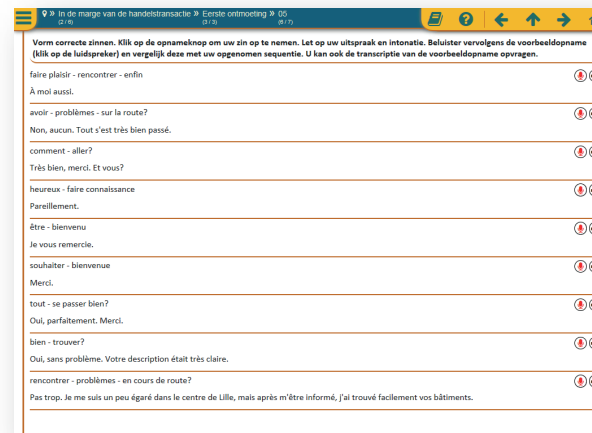

### Customize in Almost No Time

*Have your own company fonts or colors? - No problem!*
