

Our Philosophy

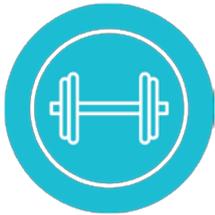

We trust in the *health benefits* of *natural ingredients* and share the belief that human well-being comes from the harmony of body, mind, and soul. To transfer this philosophical quest to the modern day, we took on the challenge and developed products that meet this goal.

„TEATOX BRINGS A MODERN TWIST TO THE NATURAL POWER AND ANCIENT WISDOM OF ORGANIC TEA.“

Holistic approach

Body

TEATOX develops special tea blends that make weight loss easier without relying on poor food choices, sacrifice or being laxative like other diet programs.

Mind

Teas in the Mind category support to take the full advantage of the intellectual potential - to always be available when it matters.

Soul

A moment of relaxation helps balancing the mental well-being. TEATOX offers the right companion to escape everyday life, even if it is just for a single moment.

Products

For us, it is all about the right combination. All of our tea blends are

More than just tea - TEATOX&YOU Guide

Our guiding principle is to contribute to a healthier lifestyle through the natural power of our teas. But we are aware that sustainable effects are difficult to achieve solely through a drink. For this reason we are developing specific applications for each of our teas for everyday life in order to support your customers
