

AKRON

RANGE OF PATIENT POSITIONING COUCHES AND PLINTHS

Technical Information

STREAMLINE™ 225

All **STREAMLINE™** products have a Safe Working Load of 225 kgs and have been tested to the applicable clauses within IEC 60601-2-38 for mechanical safety and load test.

All products are tested in accordance with IEC 60601-2-38 Clause 28.4.

This symbol denotes the Safe Working Load of the couch and its capability to lift the specified load from the minimum to the maximum height. In addition, all **STREAMLINE™** couches have been rigorously tested, with a 2 x Safe Working Load (450kg) loaded evenly, for in excess of one hour, to further prove lifting capability.

The **Contourline™** comfort upholstery feature has been developed to provide enhanced patient comfort and security. The subtle contoured shaping increases patient contact areas, improving comfort, as well as positioning the patient centrally upon the couch. Available on standard models (64cm) at additional cost.

AKRON's Quality Management System is certified by Lloyd's Register Quality Assurance (LRQA) to ISO9001:2008 and ISO 13485:2003 as identified by certificate number LRQ 4002740.

The CE marked products comply with the Essential Requirements in Annex I of EC Directive 93/42/EEC and the technical documentation is detailed within the 'Technical File'.

All Akron products featured in this catalogue have been designed to provide clearance for a mobile hoist for patient transfer procedures.

All height range measurements are from floor to top surface working height and have a tolerance of +/- 1.5cm. All angular measurements have a tolerance of +/- 5 degrees.

All upholstery sizes are for each individual section do not include hinges and have a tolerance of +/- 1.5cm. Overall lengths may be longer.

The upholstered couch sections satisfies flammability requirements to the following standards. BS7176:1995 (medium hazard) using ignition sources 0 (cigarette), 1 (gas) as defined in BS EN. 1921-1 & 2 and 5 (crib) BS.5852:1990

Standard Colours – Mundial Range

The Mundial Contract Vinyl is suitable for a wide range of healthcare applications. The surface is hard wearing, water proof, easy to clean and is available in 6 standard colours.

Premium Colours – Diabolo Range (Additional Cost)

The Diabolo Club Contract Vinyl is very hard wearing and suitable for a wide range of hospital and nursing home furniture, rehabilitation equipment and care home product applications. This high quality range of vinyls is available at an additional cost. There is a choice of 12 colours.

	Mundial Contract Vinyl	Diabolo Club Contract Vinyl
Waterproof capability	Water column 4	Water column 6
PVC/cotton content	88% PVC – 12% cotton	84% PVC – 16% cotton
Martindale rub test	38,000 rubs without wear	50,000 rubs without wear
Surface finish	Embossed leather look	Anti-slip smooth surface
Resistant to mildew and body sweat	Yes – when cleaned regularly	Yes – when cleaned regularly

Full details of cleaning and decontamination of all vinyls are detailed within the user manual. Please note: The colours illustrated may vary from actual vinyl supplied. This is because these colours are emulated using four colour printing process. However, every attempt has been made to make them as accurate as possible.

Contourline™ Upholstery Option

Available as a cost option on all **STREAMLINE™** Models (except Drop End).

This option can only be supplied at 64 and 70cm widths.

HCOU111	Contourline™ Upholstery (additional cost per couch)	£95.00
HCOU112	Premium Diabolo Vinyl colour (additional cost per couch)	£29.00

AKRON

De Luxe Tilt Table

The Akron Tilt Table has numerous applications in both examination and treatment procedures. As a product it adds diagnostic value in vascular laboratories, for haemodynamic assessments; in general ultrasound departments, for positional scanning.

Tilt tables are also used extensively in the area of functional rehabilitation for the handicapped and disabled patient where the requirement to stand or be upright is of paramount importance, where it improves the 'quality of life', assists the natural gravitational functions of the body, re-educates the balance mechanisms affected by long periods of lying and gives a degree of independence.

Features

- Electric variable height and tilt operation
- Choice of Standard, Split Leg or Backrest models
- Full 90° of tilt
- Adjustable angle twin foot boards
- Lowers to wheelchair height
- Large braking castors
- Tilt angle indicator
- Hand grips (removable)
- Work table (adjustable and removable)
- Quick release
- Choice of upholstery colours – see page 39

Split Leg models are available with a number of optional accessories that have been developed to cater for patients requiring additional support and stability during Tilt Table procedures. These accessories must be specified at time of ordering.
