Introduction

In September 2018 SUSAN BIJL will launch the ETNOMANIE collection by styleprofiler Ellie Uyttenbroek. ETNOMANIE is a celebration of humanity and its colorful diversity. The collection will see the renowned SUSANL BIJL products in combinations of 5 skin tone colors.

Ellie Uyttenbroek is known and praised for *Exactitudes*, a groundbreaking work in which she researches and portrays cultural identities. Last year she created the traveling exposition ETNOMANIE, entirely made of manipulated ethno-historical images.
