

M35 TABLETS

M35 tablets are designed to safely and completely remove coffee oils and residues from the brewing group and to clean the milk frothing system on the Cafina/Melitta coffee machines and milk systems.

FEATURES AND BENEFITS

- Precise dissolution time to provide optimal cleaning performance
- Pharmaceutical and food grade ingredients used
- Non-corrosive formulation to protect the espresso machine

RECOMMENDED FOR

Cafina/Melitta coffee machines and milk systems

INSTRUCTIONS

Milk system:

- Remove the milk container from the machine's milk refrigerator
- and replace with the empty milk system cleaning container (in the absence of a dedicated cleaning container use a heat resistant container of at least 1 litre (35 oz) capacity).
- Place one M35 tablet in the empty container and activate the milk system cleaning cycle.

Coffee system:

- Select the cleaning program on the machine
- insert one M35 tablet in the special opening when instructed by the display.
