

MFC RED

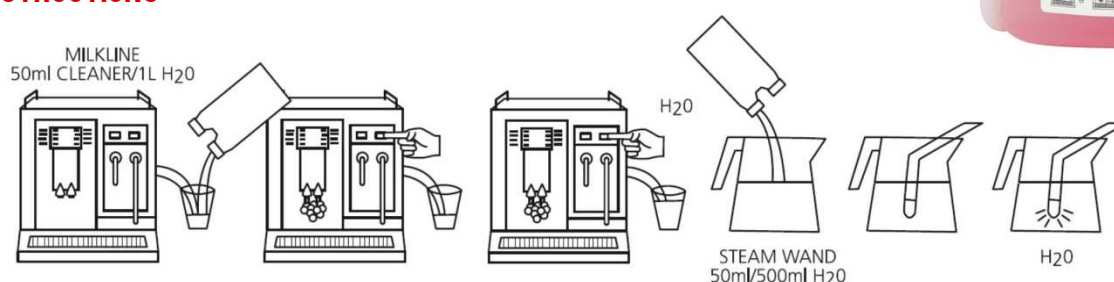

MFC Red is designed to effectively target milk stone from milk lines, frothers and parts on automatic espresso machines.

FEATURES & BENEFITS

- Non-hazardous, non-dangerous formulation
- Provides excellent milk stone removal along with descaling of the automatic milk frothers
- Leaves no odour after rinsing
- Is non-corrosive to the espresso machine and parts

INSTRUCTIONS

Ensure the white cap is tightly sealed and slightly loosen the red cap. Gently squeeze the bottle until reservoir measures 50ml, remove the red lid and pour from reservoir. Cleaning Milk Frother:

- Add 50ml of Cleaner to 1L of warm water in a cleaning container. Ensure you replace the red cap and seal tightly after pouring the required dose.
- Insert milk frother suction tube into solution.
- Run entire solution through frother.
- Repeat the above procedure with 1L of clean water to rinse all the components thoroughly.

Do not mix with other chemicals.
