- Rapid dissolution and free-rinsing
- Tablet provides convenient and precise measured dosing
- Safe on brass, stainless steel and copper
- Completely soluble leaving no trace of odour

### INSTRUCTIONS

#### Daily Procedure to back-flush each delivery group:

- Remove coffee filter from group handle, & replace with “blind” filter.
- Add one tevo maxi Tablet into the group handle & insert as if brewing espresso.
- Start cycle and allow running for 10 seconds to dissolve the tablet.
- Start and stop cycle 6 more times – run for 10 seconds, stop for 10 seconds.
- Remove the group handle, rinse well the blind filler with water from delivery group.
- Re-insert handle with blind filter, start & stop cycle 10 times – run for 5 seconds, stop for 2 seconds to ensure thorough rinsing remove blind filter & insert regular filter.
- Brew & discard a double espresso to re-season machine.

#### Daily procedure to clean filters and group handles:

- Dissolve 2 Cleaning Tablets in 500ml of hot water from the machine’s boiler. Soak group handles & filters for 10 minutes. Rinse thoroughly in running hot water.
