

The New OMEGA Squeegee

The new OMEGA Squeegee by SOTT unites all the features that a professional film installer can expect of a squeegee. Switching between different squeegees is no longer necessary. From now on there is the OMEGA Squeegee.

LM-10: 10cm width

LM-13: long version
13cm width

Stiff and sturdy

The OMEGA Squeegee by SOTT is made of a rubber/plastic composite that makes it stable and exerts good counter pressure when you are power-squeegeeing.

Flexible and malleable

The OMEGA Squeegee follows all surface contours and curves impeccably.

ALSO INTERESTING FOR YOU:

Industrial Felt

500-018

500-019
