No.1: Signmaker - Wrap Package

What contains SOTT's ToolKit box No. 1?

Check it out below.

Product	Description
SOTT Toolbag	<i>SOTT designed a special Toolbag which fully meets the requirements of professional installers across Europe. The Toolbag contains: special magnetic compartments, multiple knife compartments, mounting tape holder, squeegee pockets, tape measure holder, mounting tape holder and more.</i>
SOTT Magnet standard version	<i>The muscle man: more than 15 lbs of pull! The base contains 6 Neodymium magnets that combine into a magnetic force of over 15 lbs. As a result, fewer magnets are needed in one place to keep the sheet in place.</i>
SOTT Magnet GOLIATH	<i>The Goliath is the strongest of all magnets. The base contains 6 Neodymium magnets that together develop a minimum of 50 lbs pulling force. The Goliath is so strong that one of them can hold up a 5 foot wide sheet of film with a length of 16 foot. So just clamp it down with The Goliath and start installing!</i>
SOTT Squeegee	<i>Medium stiff squeegee by SOTT unites all the features that a professional film installer can expect of a squeegee. Switching between different squeegees is no longer necessary. Width: 4".</i>
SOTT Velours	<i>Special 'felt' with an industrial grade adhesive layer that will not come loose. This 1mm (.04) thin protective felt is intended for use on a squeegee and allows extra pressure to be applied during application while the risk of scratching is eliminated. Longer life than all regular brands.</i>
SOTT Tweezers	<i>Pushing vinyl into small corners and cutting or wrapping around hard to reach areas can be quite a fight. SOTT WRAP TWEEZERS are specially designed for those tricky jobs. 3 different types of tweezers, each with its own purpose. Type 1: Flat round nose, type 2: Curved end with point and type 3: Round shape, flat inner surface.</i>
Pro Knife	<i>World's best professional cutter with 30 degree angled blade for precision work. Body and button is made of stainless steel. Auto-lock system.</i>
Snap-Off Blades	<i>Without doubt the sharpest 30 degree snap-off blades ever! Many professional fitters and designers prefer the 30 degree version to the standard 45 degree snap-off blades. The blades feel sharper and are far more versatile. The sharp point is extremely handy for weeding and for pricking air bubbles during film application.</i>
SOTT Toolkit box	<i>Especially designed cardboard box to hold all the tools. Ready for use by any installer or wrapper on whichever job might come their way.</i>
SOTT Installation Gloves	<i>Seamless application glove, made of elastic material. This glove gives you the necessary feeling that you need during your application work, especially when you deal with curved surfaces on cars. Made of dust free material, so even touching the adhesive of the vinyl will not cause any residue to be left behind.</i>
