

# VITAMIN

## Product Specification Sheet

### Product Description

The Eclipse table is a beautiful side table with a subtle defining feature. The inset wooden top can be rotated 180 degrees to create a large surface, exposing a tray-like recess. When kept in its most compact form, the table rests neatly against a wall, creating a reduced foot-print. The Eclipse table can be used in both bed-side and living room areas, an incredibly useful as well as beautiful piece of furniture.

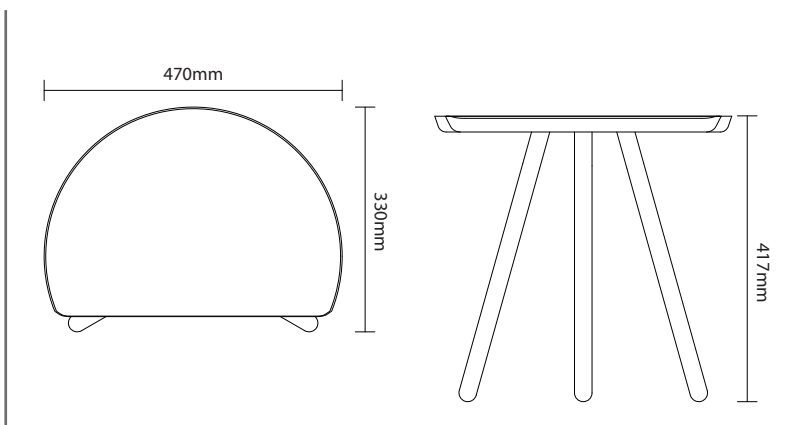

**Product Type:** Side Table

**Materials:** Aluminium and Oak/Ash

**Colour:** Blue, Yellow, Black, White and Ash/Oak Tops
