

## HIGH STOOL 2017 - LIMITED EDITION

---

The Mater High Stool 2017 is a new and limited edition of Space Copenhagen's iconic High Stool designed in 2009. With its organic yet minimalist style, this bar stool is suitable for both residential and commercial use.

The 2017 Edition adds premium features with a brass metal footrest and a seat upholstered with silky soft and exclusive Royal Nubuck aniline leather from the most recognized leather supplier in Denmark, Sorensen Leather. The wood is crafted in FSC certified oak wood from European sources with a water-based dark stain.

The 2017 Edition is limited. Only available within the year of 2017 stocking in counter height 69 cm. For projects height 74 cm is available.

### LEATHER AND CARE

Royal Nubuck is a chrome-free aniline leather made from the best European raw hides. Royal Nubuck has a natural grain and a smooth velvety finish that gives it a very special character. The leather has a high breathability which gives an amazing seating comfort and will become smoother and shiny in use.

Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid any chemical products, such as saddle soap, other leather cleaners or household products. Only clean the wood with a slightly damp, soft, lint-free cloth and protect the High Stool from direct sunlight, excessive heat and sharp objects.
