FAVN™

DESIGN BY JAIME HAYON, 2011

Favn™; the Danish word for embrace, is a result of a creative dialog between the Spanish designer, Jaime Hayon and Fritz Hansen. The sofa's open and rounded curves is inviting, and perfect for relaxation, work and everything inbetween.

The Favn™ sofa comes in a selection of unique Designer Selections colours in a mix of 3 fabrics; one fabric for the shell, a second for the seat and back cushions, and a third fabric for the small decorative cushions. The sofa is also available in a wide range of standard fabrics. The 4 legs are made of brushed aluminum and a set of large felt glides (for soft wooden floors) comes with the sofa as a standard.
