

Volume

DESIGNED BY GAMFRATESI

LIGHT
YEARS

Inspired by the buttons on an original stereo amplifier from the 1980s, GamFratesi has created the Volume table lamp. The lampshade is about the size of a palm and thus allow one to increase or decrease the intensity of the light quite easily – by a simple rotation of the hand on the shade. The small LED table lamps are made of die-cast aluminium, opal acrylic and finished with a matt lacquer. Equipped with three Osram 1W LEDs, the lamp emits a pleasant light 360 degrees around and out through the opening at the top of the lamp. The LEDs burn for 50,000 hours on average, without any maintenance being required.

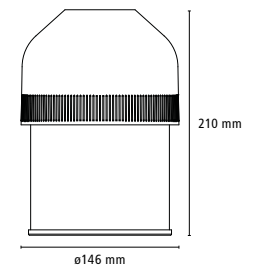

FACTS

COLOURS

Blackbird, Evergreen or Fade-to-grey, matt lacquer

MATERIAL

Die-cast aluminium, acrylic

PRODUCT NAME	PRODUCT NO.	DESCRIPTION	LIGHT SOURCE
VOLUME TABLE Blackbird	34191409	Blue-black matt lacquer, acrylic	3 x Osram Oslon Square 1W (350mA)
VOLUME TABLE Evergreen	34191306	Petroleum matt lacquer, acrylic	3 x Osram Oslon Square 1W (350mA)
VOLUME TABLE Fade-to-Grey	34191212	Light grey matt lacquer, acrylic	3 x Osram Oslon Square 1W (350mA)
