

SOPHIE MIRROR

The Mater Sophie Mirror is an elegant and simple new range of mirrors, combining leather and wood. The shape and design is inspired by old barrels and comes in three different sizes and stains of sustainably harvested mango wood, in either black or tan leather. The hand-hammered nails resemble the craftsmanship of traditional barrel making, which originally helped keep the hoops in place. The spacing around the mirror creates a light and optical illusion of a floating mirror.

Indian mango wood is sustainably and responsively sourced timber - once the productive life of the tree is over another one is planted to replace it. The finish on the wood is a lead free water based clear PU lacquer that respects the local environment.
