

Calabash

DESIGNED BY KOMPLOT DESIGN

LIGHT
YEARS

When designing the Calabash pendants, the Komplot designers were inspired by the simple and harmonious form of the Calabash pumpkin. Calabash is authentic craftsmanship from the core to the surface. The organic design idiom and the specially chromed and slightly changeable surface provide Calabash with a unique expression. The shade is made of drawn aluminium and finished with a chromed layer that reflects the surroundings and unites the space. The Calabash model that is fitted with a reflector to increase the down light emits a warm, dazzle-free illumination. The pendant generates a warm atmosphere and looks excellent in small groups.
