			Plate 120 x 120 cm

Available colour and material:

- Glass tops, transparent, tinted green, tinted brown (size Ø55 cm only transparent)
- Marble tops, green, white, brown
- Granite tops, black

Model Waikiki · Design Morten Voss

English:

Waikiki – sun, water and sand together in one organism. A super, organic under-frame that it's almost irritating. It gets under your skin just like the famous beach in Honolulu after which it is named. The Organic form has a fantastic strong appeal and attraction. Waikiki works like an attention magnet and, at one level, one almost enters into a symbiosis with the table that makes it difficult to look away," says the designer. The under-frame is combined of two "dressing bricks", which can be arranged to create two different appearances.

The frame is available in off white lacquered MDF and in solid oiltreated oak, naturel or black and combines with glass sheets to create a full image of the beach's light.

The marble is treated with Tenax Hydrex stone sealer, which makes the marble anti-stain, water and oil proof. Can be for external use. Does not change the color of the stone. Hydrex operates on the surface of materials, and prevents liquids from penetrating the material.

Dansk:

Waikiki - sol, vand og sand i en organisme. Et super organisk stel som næsten er irriterende. Det kryber under huden på dig, næsten ligesom den verdenskendte strand på Honolulu, som bordet er opkaldet efter. Den organiske form er dragende og giver en god fornemmelse. "Waikiki virker næsten som en opmærksomheds magnet, det drager og gør det svært at kigge væk igen" siger designeren. Stellet består af to sammensatte stykker som kan danne to forskellige udtryk.

Stellet fås i off white lakeret MDF, i massiv olieret egetræ, natur eller sort og kombineret med glaspladen danner bordet en kopi af lyset og billederne fra lyset på stranden.

Marmorpladerne er behandlet med Tenax Hydrex stenforsegler.

Tenax Hydrex fungerer i overfladen af pladen og forhindrer væske i at trænge ind i stenen. Behandlingen gør marmorpladen modstandsdygtig overfor pletter og afvisende overfor vand og oile. Med denne behandling kan pladen bruges undendørs. Behandlingen kan evt. gentages og Tenax Hydrex ændrer ikke farven på stenen.
