2R RASMUSSEN & ROLFF

Leif Erik Rasmussen (1942) and Henrik Rolff (1944) both finished training as furniture designers at the Danish Design School in 1968.

The two designers mainly dealt with the needs of the workplace based on ergonomic considerations. They have created many beautiful, thorough and well thought through pieces of office furniture, which today are part of many offices.

In 1982 they won the Danish prize 'Møbelprisen', one of the oldest and biggest prizes within furniture design in Denmark, for their storage system Paustian Shelving System. It was originally developed as a storage system that would complement the Alvar Aalto chairs and tables.

DESCRIPTION

A simple and stylish cabinet system with body with shelving, drawers and doors or without fronts, in several alternate surfaces and colours. Available with plinth or wall-mounting brackets.

Storage unit for offices, reception areas or meeting rooms, or at home in the living room, dining room, work room, bedroom or hall.

MATERIALS

The cabinet consists of a body in MDF with a 45-degree bevelled edge, with shelving in painted or veneered MDF and painted front edge. Doors in aluminium, veneer or painted. The drawers are available painted, in aluminium or veneer.

Paustian 2R Cabinet System is supplied fully assembled and ready for installation. Adjusting screws enable fine adjustments.

VARIANTS

Paustian 2R Cabinet System is available in the following variants:

Body:

- white (RAL 9010, gloss 05)
- grey (anthracite, CWS 81632, gloss 05)
- black (RAL 9011, gloss 05)
- light oak veneer, brown edges (RAL 1011, gloss 05)
- smoked oak veneer, black edges (RAL 9011, gloss 05)

Shelving and partitions:

- maple veneer
- oak veneer
- smoked oak veneer
- white (RAL 9010, gloss 05)
- grey (anthracite, CWS 81632, gloss 05)
- black (RAL 9011, gloss 05)

Fronts:

- maple veneer
- oak veneer
- smoked oak veneer
- aluminium
- white (RAL 9010, gloss 05)
- grey (anthracite, CWS 81632, gloss 05)
- black (RAL 9011, gloss 05)

MAINTENANCE

The shelves may be cleaned with a dry cloth.

Stubborn stains may be removed with a cloth wrung in lukewarm water. If this fails to remove the stain, a universal cleaning fluid may be used, or washing-up liquid. Rinse off with a cloth wrung in clean water, and finally dry with a dry cloth.

All veneered surfaces have been treated with an environmentally-friendly lacquer that cannot tolerate liquids over longer periods. Note that damp may destroy the veneer and should be wiped off immediately.

ENVIRONMENT AND TESTS

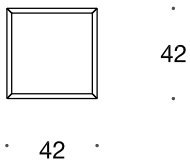

The cabinets can be sent for recycling or incineration.

The cabinets have been tested according to the EN 14073:2:2004 standard.

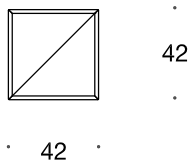

GUARANTEE

Standard products are guaranteed for five years against manufacturing defects in the materials or construction. Wear or damages to the product are not covered by this guarantee. All dimensions are approximate.
