

MAX **PRO**

HOLDER

MAX PRO HOLDER

The Max Pro Holder is ideal for storing the styling tool during or after styling the hair. Styling tools with plates up to 1.5 inch or a diameter up to 25 mm are suitable for this handy styling accessory. The material of the holder is heat-resistant. This allows the styling tool to be safely placed in the Max Pro holder during styling, so that it does not damage the surface. Even if the styling tool is already switched off, it takes time before the tool has cooled down. By using the Max Pro holder this can be done in a safe way. The suction cups on the bottom of the Max Pro Holder ensure that the tool can be securely attached to a flat surface. A screw is also provided with which the holder can be attached to the wall.

- Safe to use
- Suitable for straighteners and curling irons
- Protects the styling tools
- Easy to attach

1. Attach and hang the holder to the wall with the supplied screw or stick it on a smooth surface with the 4 suction cups on the holder. The holder can also be put down.
2. The curling iron or hair straightener can be stored in the holder between the styles by or after styling the hair. Styling tools with plates up to 1.5 inch or a diameter up to 25 mm are suitable for this holder.
3. Make sure that the styling tool does not stay on for too long while it is placed in the holder. The holder is heat resistant up to a temperature of 220 degrees.

Attention: Only to be used in combination with hair styling tools. Max Pro is not liable for improper use of the products.

GOODBYE TO BAD HAIR DAYS
