

Product Description

From the Manufacturer

Today's mobile devices are becoming increasingly more advanced and powerful. With the launch of smart phones, tablets, ebooks, ultrabooks and more, you will need a versatile memory card that can keep up with your gadget upgrades. Transcend's Ultimate Series Class 10 micro SDHC card is an ideal solution for users looking to extend storage capacity and improve transfer speed.

Upgrade to Full Speed

Transcend's Class 10 micro SD card can deliver fast and reliable performance with read and write speed of up to 20/14 MB/s. It is designed for recording full high definition 1080p videos at high speed as well as high resolution photographs, which means you will never miss a dropped frame.

Launch Apps in Seconds

Are lagging apps on your smart phones and tablets interrupting your daily routine? Transcend's class 10 micro SD Card can extend the storage memory on your device, allowing you to acquire more and run them at faster speed.

Compatibility

Transcend's Class 10 micro SD Card supports all SD 3.0 devices is backward compatible with all SD 2.0 devices. The card comes with a full-size SDHC adapter for convenient file transferring. You can also take advantage of faster speed by pairing the memory card with our [RDF8](#) card reader. Downloading and uploading contents between devices will be quick and seamless.

Transcend
good memories start here

Transcend
32GB CLASS 10 micro SDHC

CLASS 10

Large capacity & ultra-fast transfer speeds

RecoverR x™ software

With a purchase of Transcend Class 10 micro SD Card, you can download our exclusive RecoverRx™ software for free. This user-friendly application allows you to conduct an in-depth search within your storage device for traces of erased files to be recovered.

Built-in Error Correction Code (ECC)

The memory cards are equipped with built-in ECC, which automatically detects and corrects potential transfer errors. Paired with a write-protection switch, you will never have to worry about any data loss.

Storage Chart

	Digital Photos			Video Recording
				
	8 Megapixels JPEG¹	12 Megapixels JPEG²	RAW³	Full HD⁴
8GB	1920 photos	1280 photos	548 photos	120 minutes
16GB	3840 photos	2560 photos	1096 photos	240 minutes
32GB	7680 photos	5120 photos	2192 photos	480 minutes

¹ Based on file size 4MB. ² Based on file size 6MB. ³ Based on total size 14MB.

⁴ Full HD Video based on 1920x1080 9Mbps H.264 AVC compression.

Storage capacity approximations are for general reference only. Actual results will vary depending on resolution, compression quality, video frame rate/interlace settings, and content. 1GB = 1 billion bytes. A certain portion of the storage capacity may be reserved for firmware and maintenance use.

* Note: speed may vary depending on the device and usage of hardware or software.

* SDHC Class 10 UHS-I cards are backwards compatible with SDHC class 10 devices.

* Available in Frustration-Free Packaging and/or regular retail package.

Please see Transcend website for additional warranty details and limitations.
