HIGHLY DEVELOPED TECHNOLOGY

FIBARO Intercom is solid and reliable.

With state of the art technology its features are unspotted in other devices.

SUITED TO YOUR HOME

FIBARO Intercom provides many connection options to suit your needs.
You can install the device using WiFi or Ethernet.

Control two gates

Open the door and disarm alarm

Monitor the interior of your home

MAGNIFICENT VIEW QUALITY

Wherever you mount the FIBARO Intercom, the view will be perfect – clear, properly exposed, and smooth. The advanced HDR camera, as well as Full HD resolution make you know exactly who is coming or calling at your door.

View of standard camera without HDR

Intercom with HDR function

PANORAMIC VIEW

FIBARO Intercom has a built-in fisheye wide-angle lens. You can observe the whole panorama of your surroundings. Thanks to the dewarping technology, objects are not deformed in any way.

SUPERIOR VISIBILITY EVEN AT NIGHT

Late evening, the fireplace glowing, the house is quiet ... and suddenly the doorbell rings. With the FIBARO Intercom, you know exactly who is your visitor. The device has an IR LED that illuminates the surroundings when it is dark outside, providing excellent visibility.

OUTSTANDING QUALITY OF SOUND

FIBARO Intercom is equipped with a built-in speaker and two directional microphones with noise reduction, which guarantees excellent sound quality. No more struggling to hear your visitors – voices are clear, both yours and theirs.

THE MAGIC OF YOUR VOICE

FIBARO Intercom will learn and recognize the individual timbre of your voice. This way, only you will open the door to the most guarded places in your home.

Verification success!

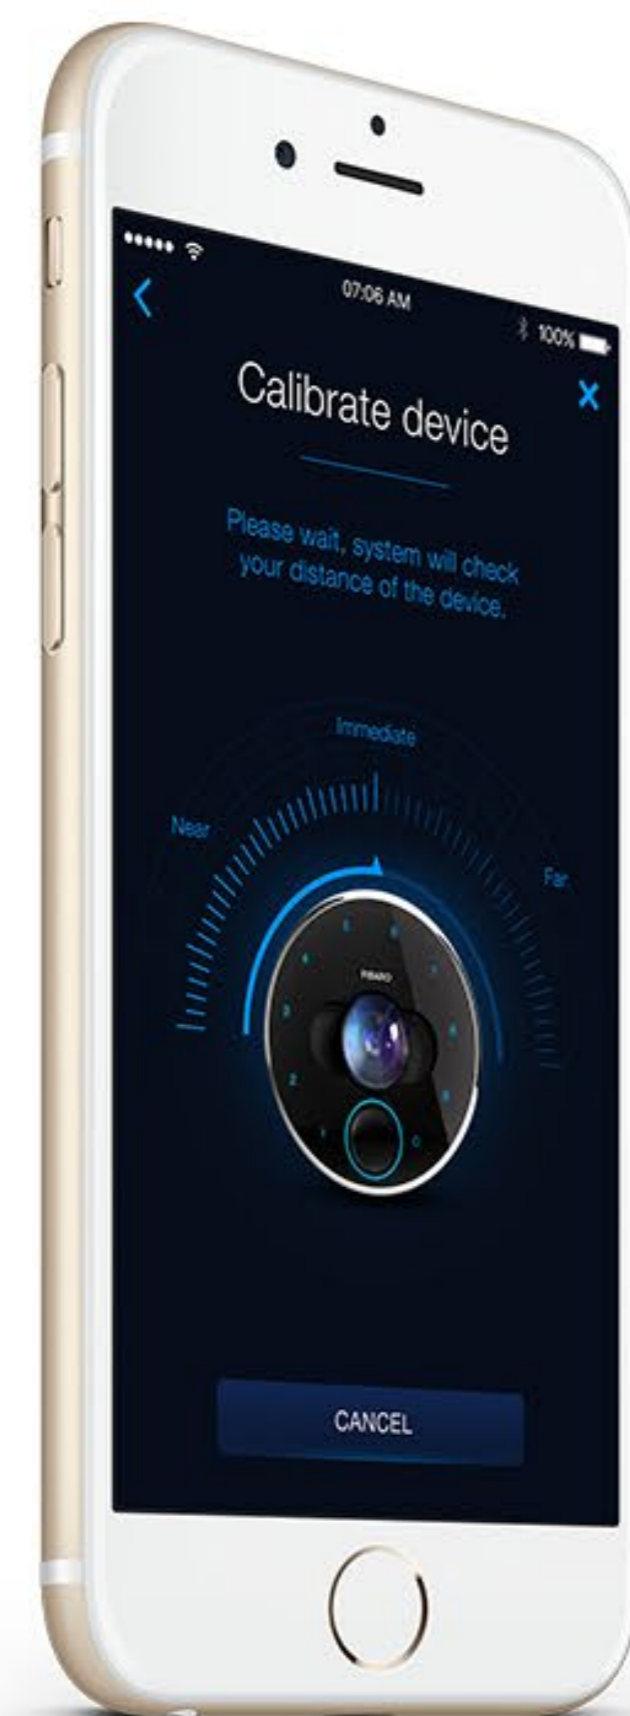

WORLDWIDE ACCESS

Install FIBARO Intercom and take your home on holiday. All you need is phone and our app. With this two things you have access to the recording events. You can talk to every visitor at the entrance door or the gate. You know when your gardener entered a PIN or you can remotely open the door for your neighbour who came to water the flowers.

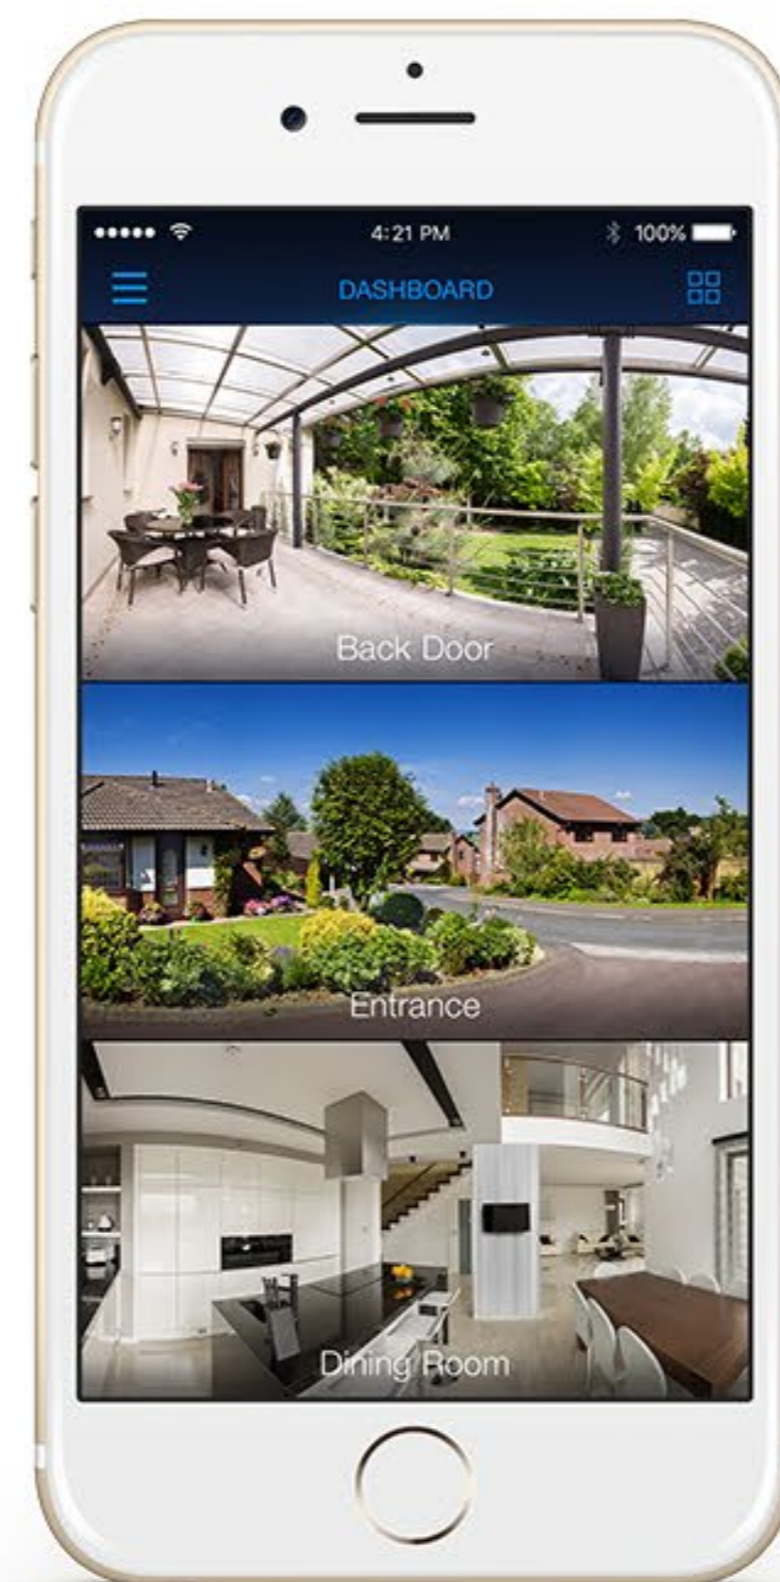

FIBARO INTERCOM APP

Dedicated app allows you to control what is happening in front of your home at the particular moment. Enables you to remotely manage your home entrance. Give you opportunities to set FIBARO Intercom functions to suit your needs.

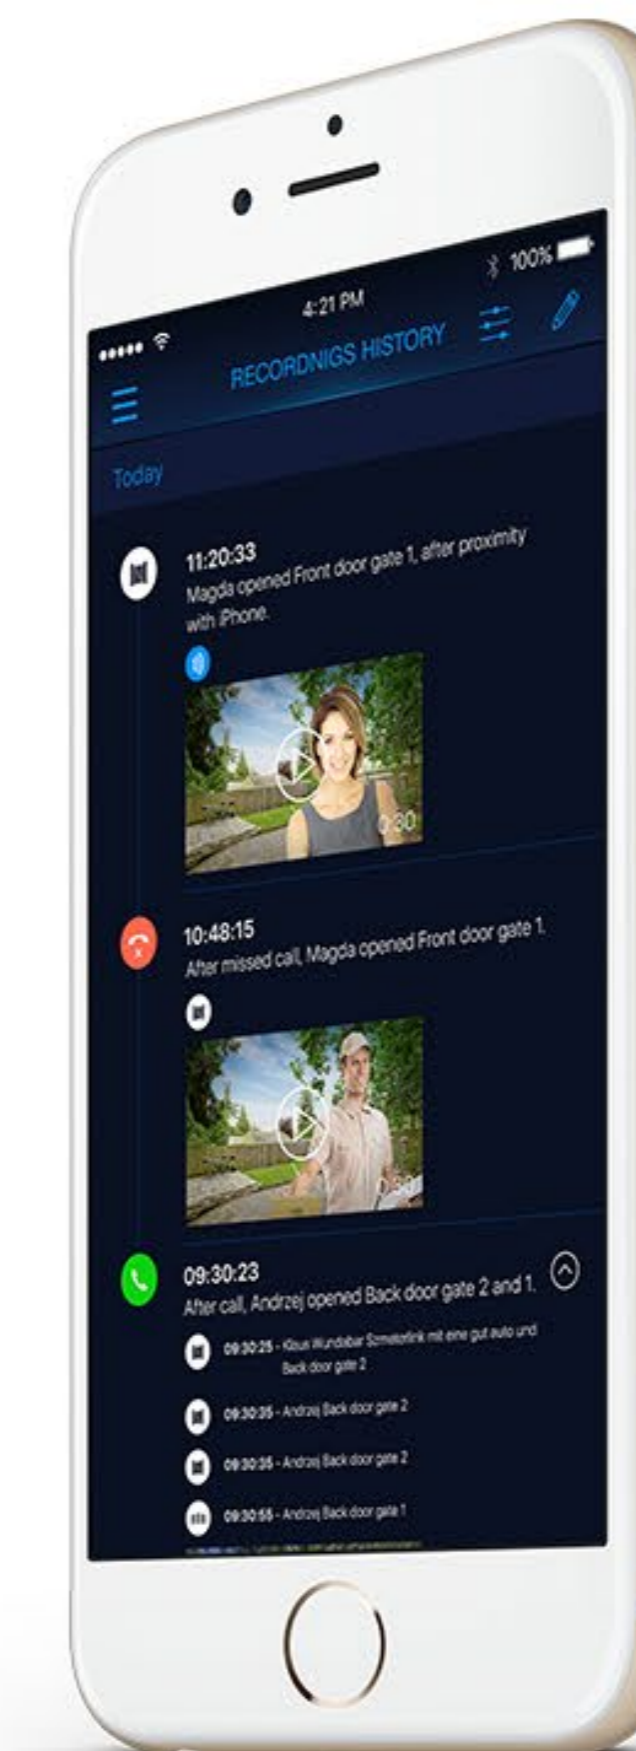

Use your iPhone to adjust desired functionalities

View several camera previews at once

Remotely open the gate or front door in no time

Play the history log with all recorded events while you are away

APP FOR YOUR RELATIVES

Each of the household members can install a dedicated FIBARO Intercom app on their mobile devices. If some of them have access to the phone, they would be able to talk or open the door remotely.

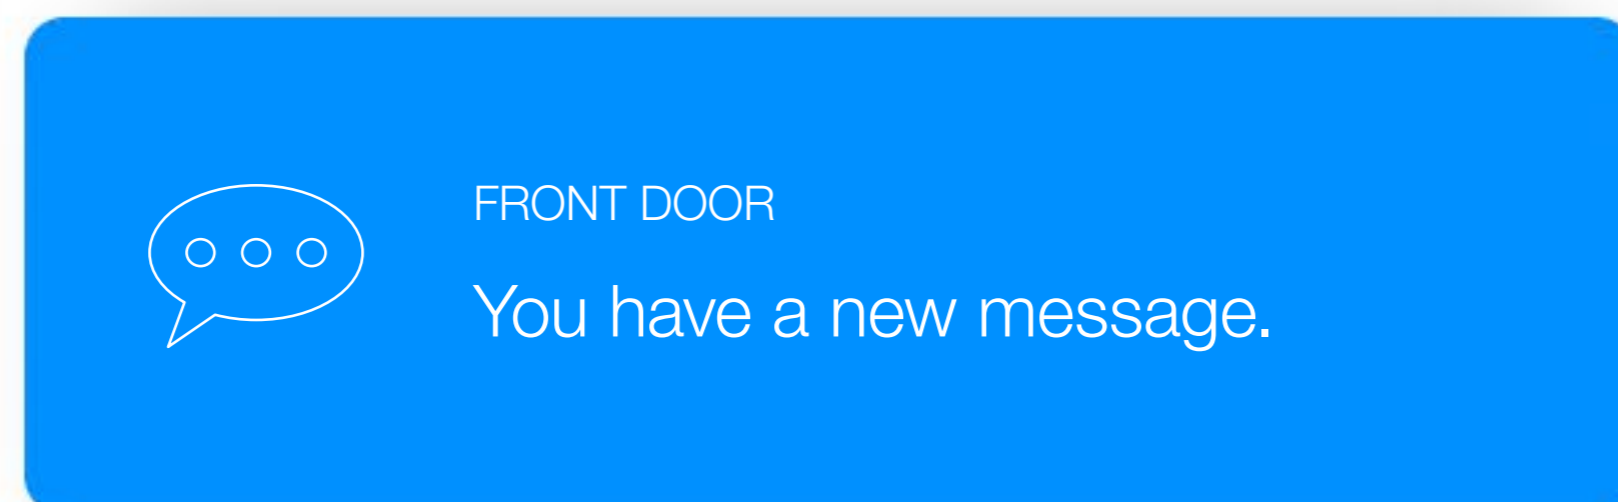

LIVE PREVIEW

You can look at your home from anywhere in the world, at any time of the day or night. This way you know who eats up sweets or if the pet lays on the couch, despite the ban. You will see a preview of all the devices mounted at home and in front of it on one screen. Nothing will escape your attention!

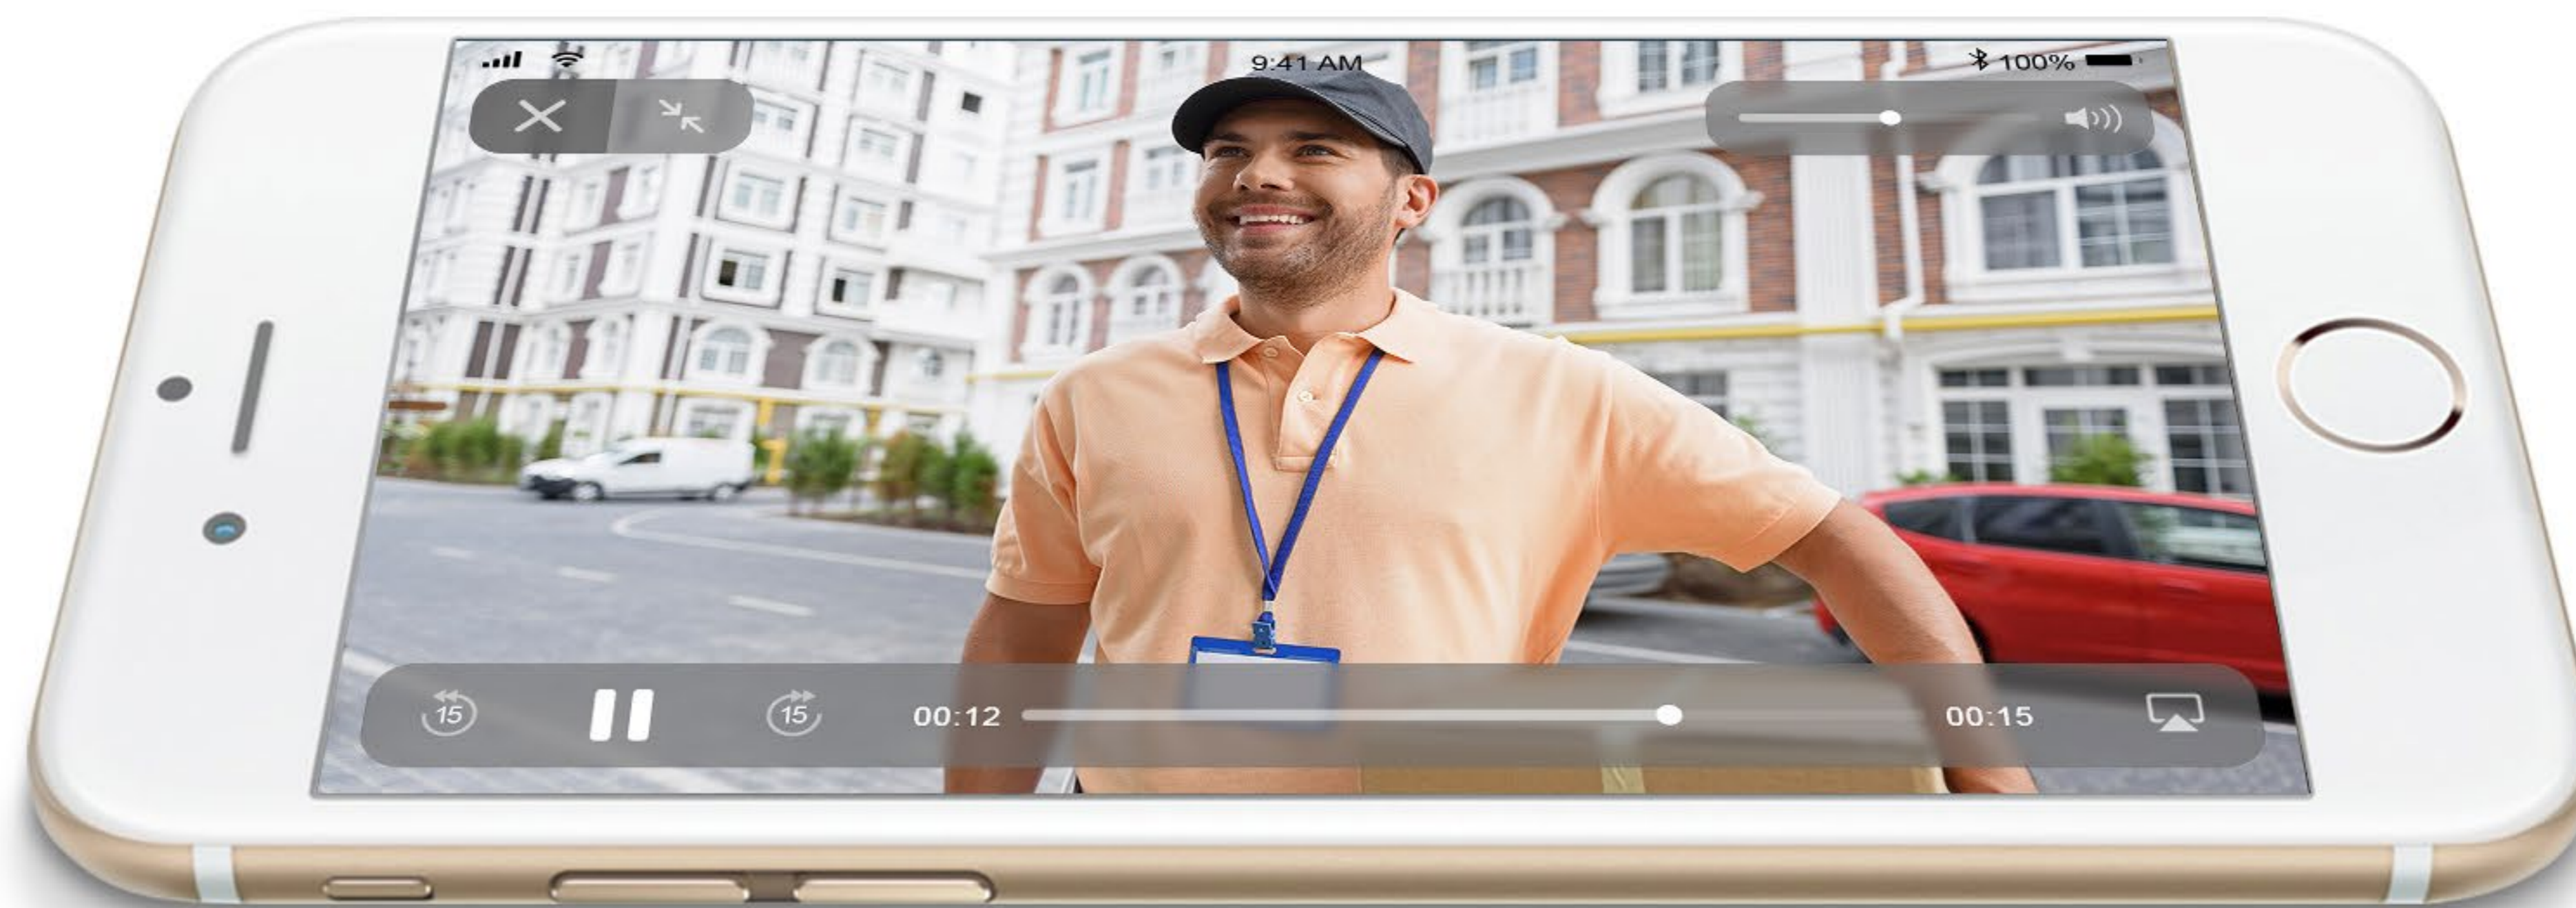

VOICE MAIL

FIBARO Intercom records and saves messages. When you are not at home, your guest may leave important information, that you will be able to replay at any time.

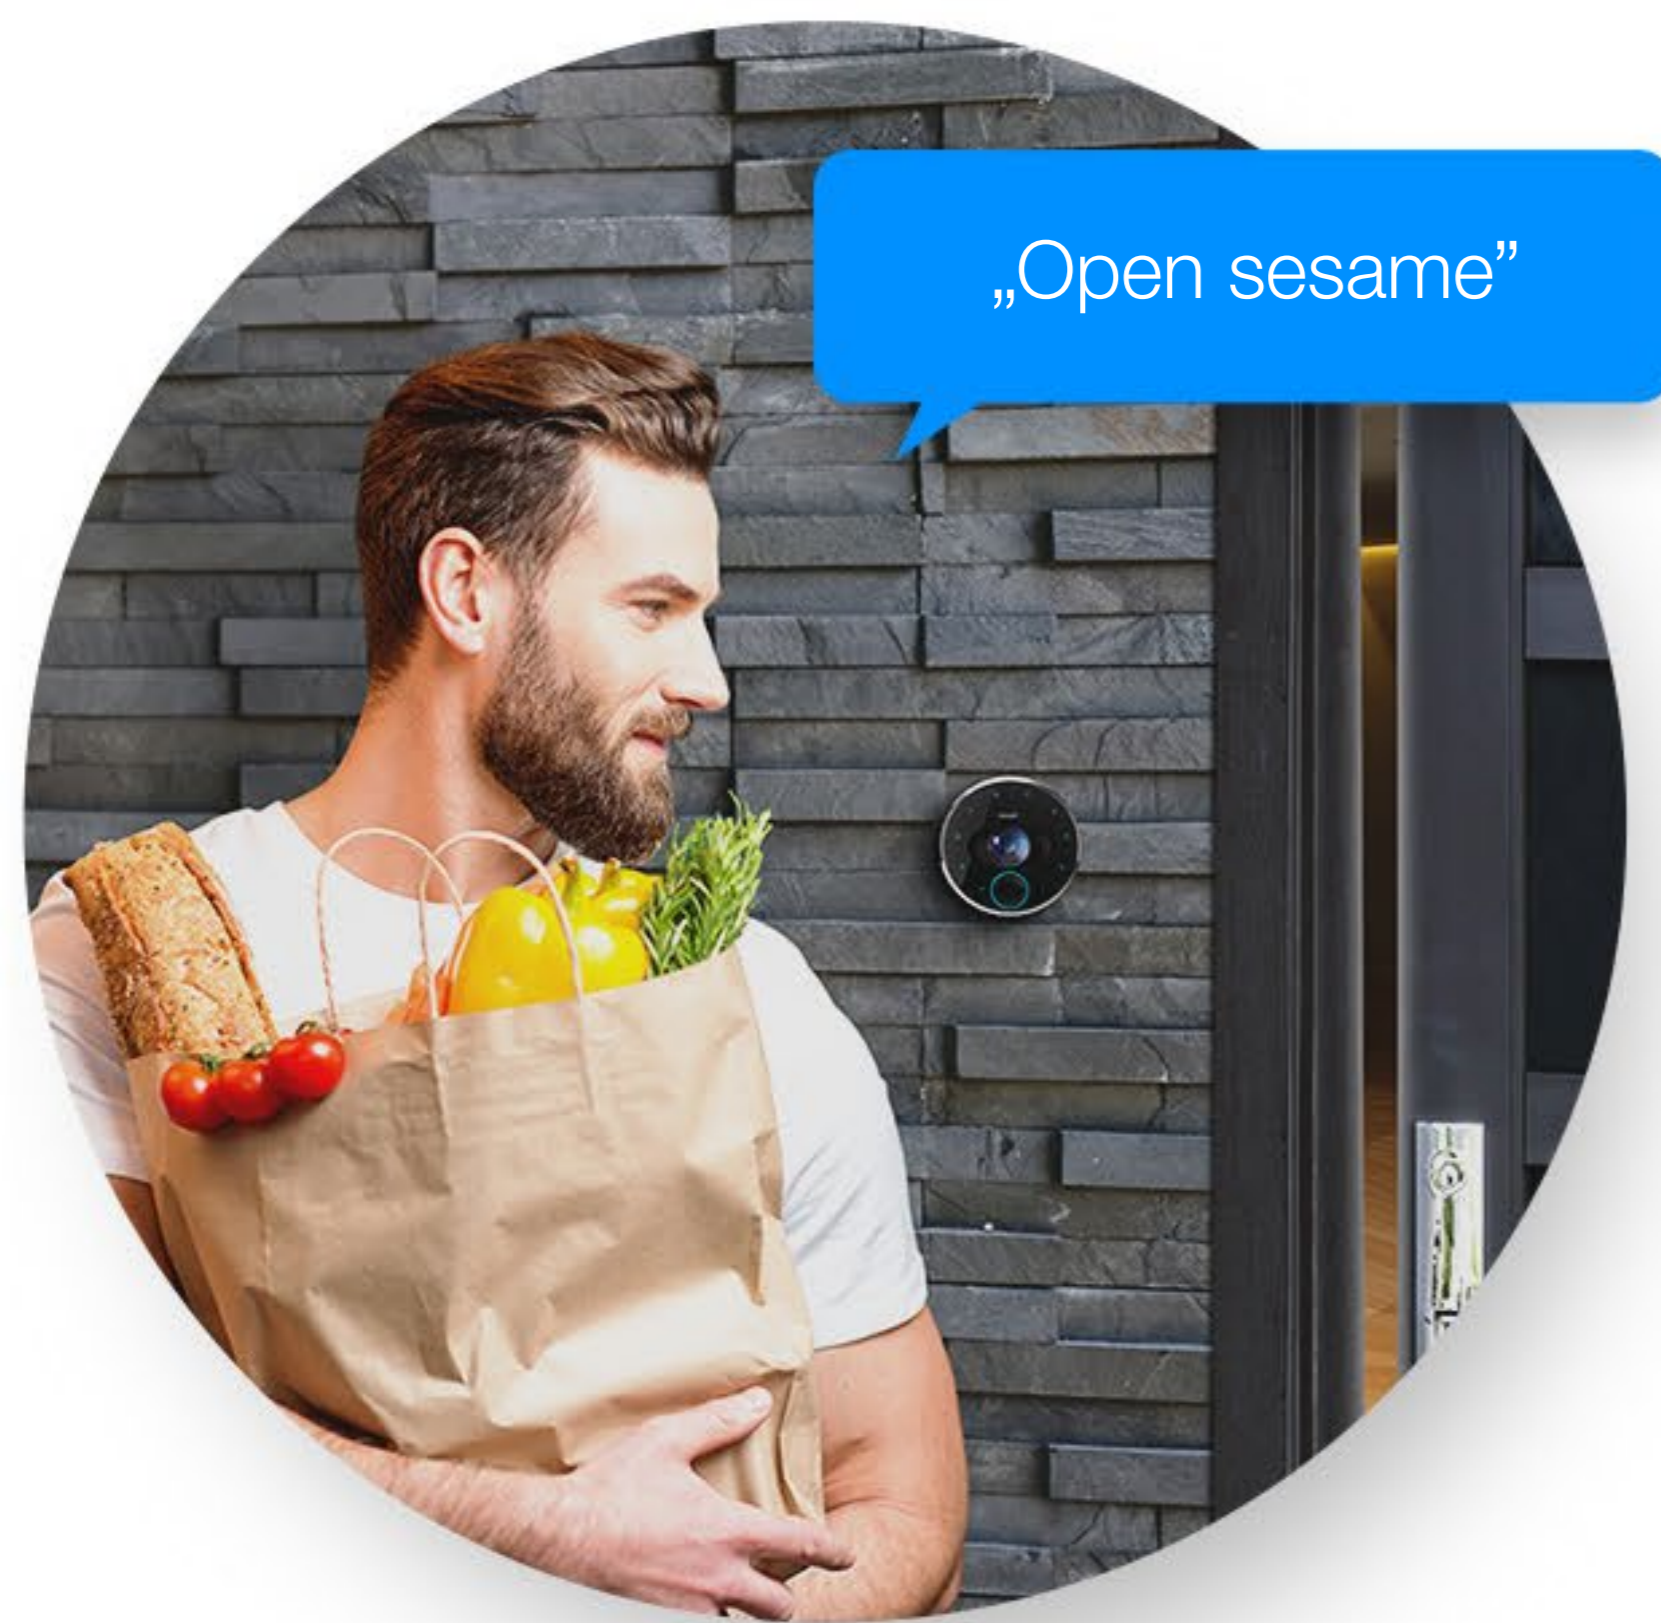

RECORDINGS PREVIEW

Sometimes you are wondering what is happening around your property, when you are at work. With FIBARO Intercom you know what is going on in front of your door. Your device saves data that you can play at any time. Furthermore, if your FIBARO Intercom detects motion, you will receive a notification on your phone or a photo of the event on email.

NEW OPENING... OF YOUR DOOR

So far when you wanted to open the door you have used the key, the code, or the doorbell. FIBARO Intercom expands the possibilities – you want to open the door: use the application, get close to the device, use the voice command* or ...

*coming soon

... ENTER YOUR PIN CODE

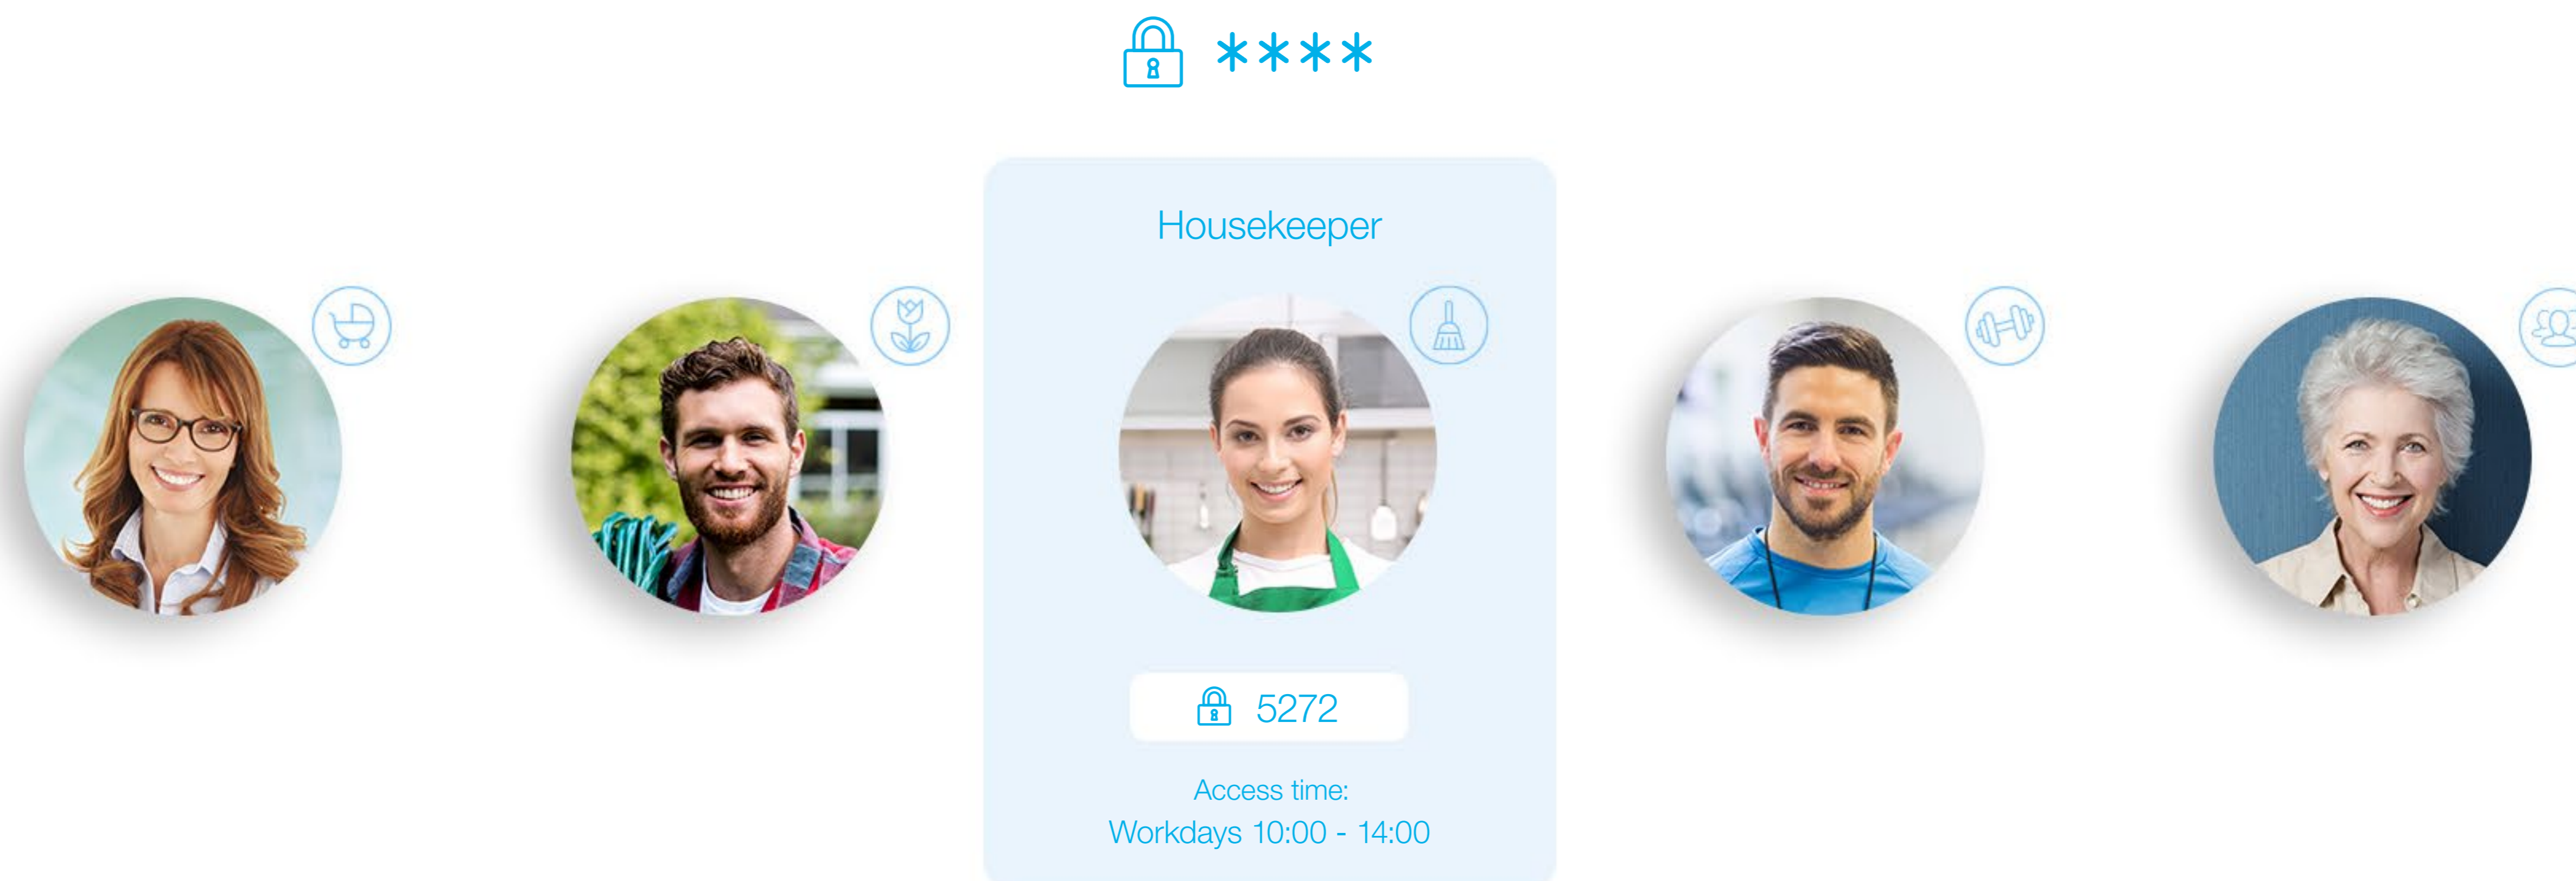

The FIBARO INTERCOM PIN code entry feature is unique and unspotted in other devices. Simply rotate your Intercom knob to enter a 4-digit number and the door or gate will open.

Correct code!

UNIQUE CODE FOR CHOSEN

You can give a unique PIN to your relatives, gardener, housekeeper or personal trainer. You decide who and when can enter your home.

HOME SWEET HOME

Imagine you come back home, the alarm is disarmed, the light in the corridor and kitchen is turned on, and the music is played on. All at once, within a moment. Your FIBARO Intercom is integrated with FIBARO System. You simply control the home to which you return even more willingly.

ALARM
Disarm the alarm system.

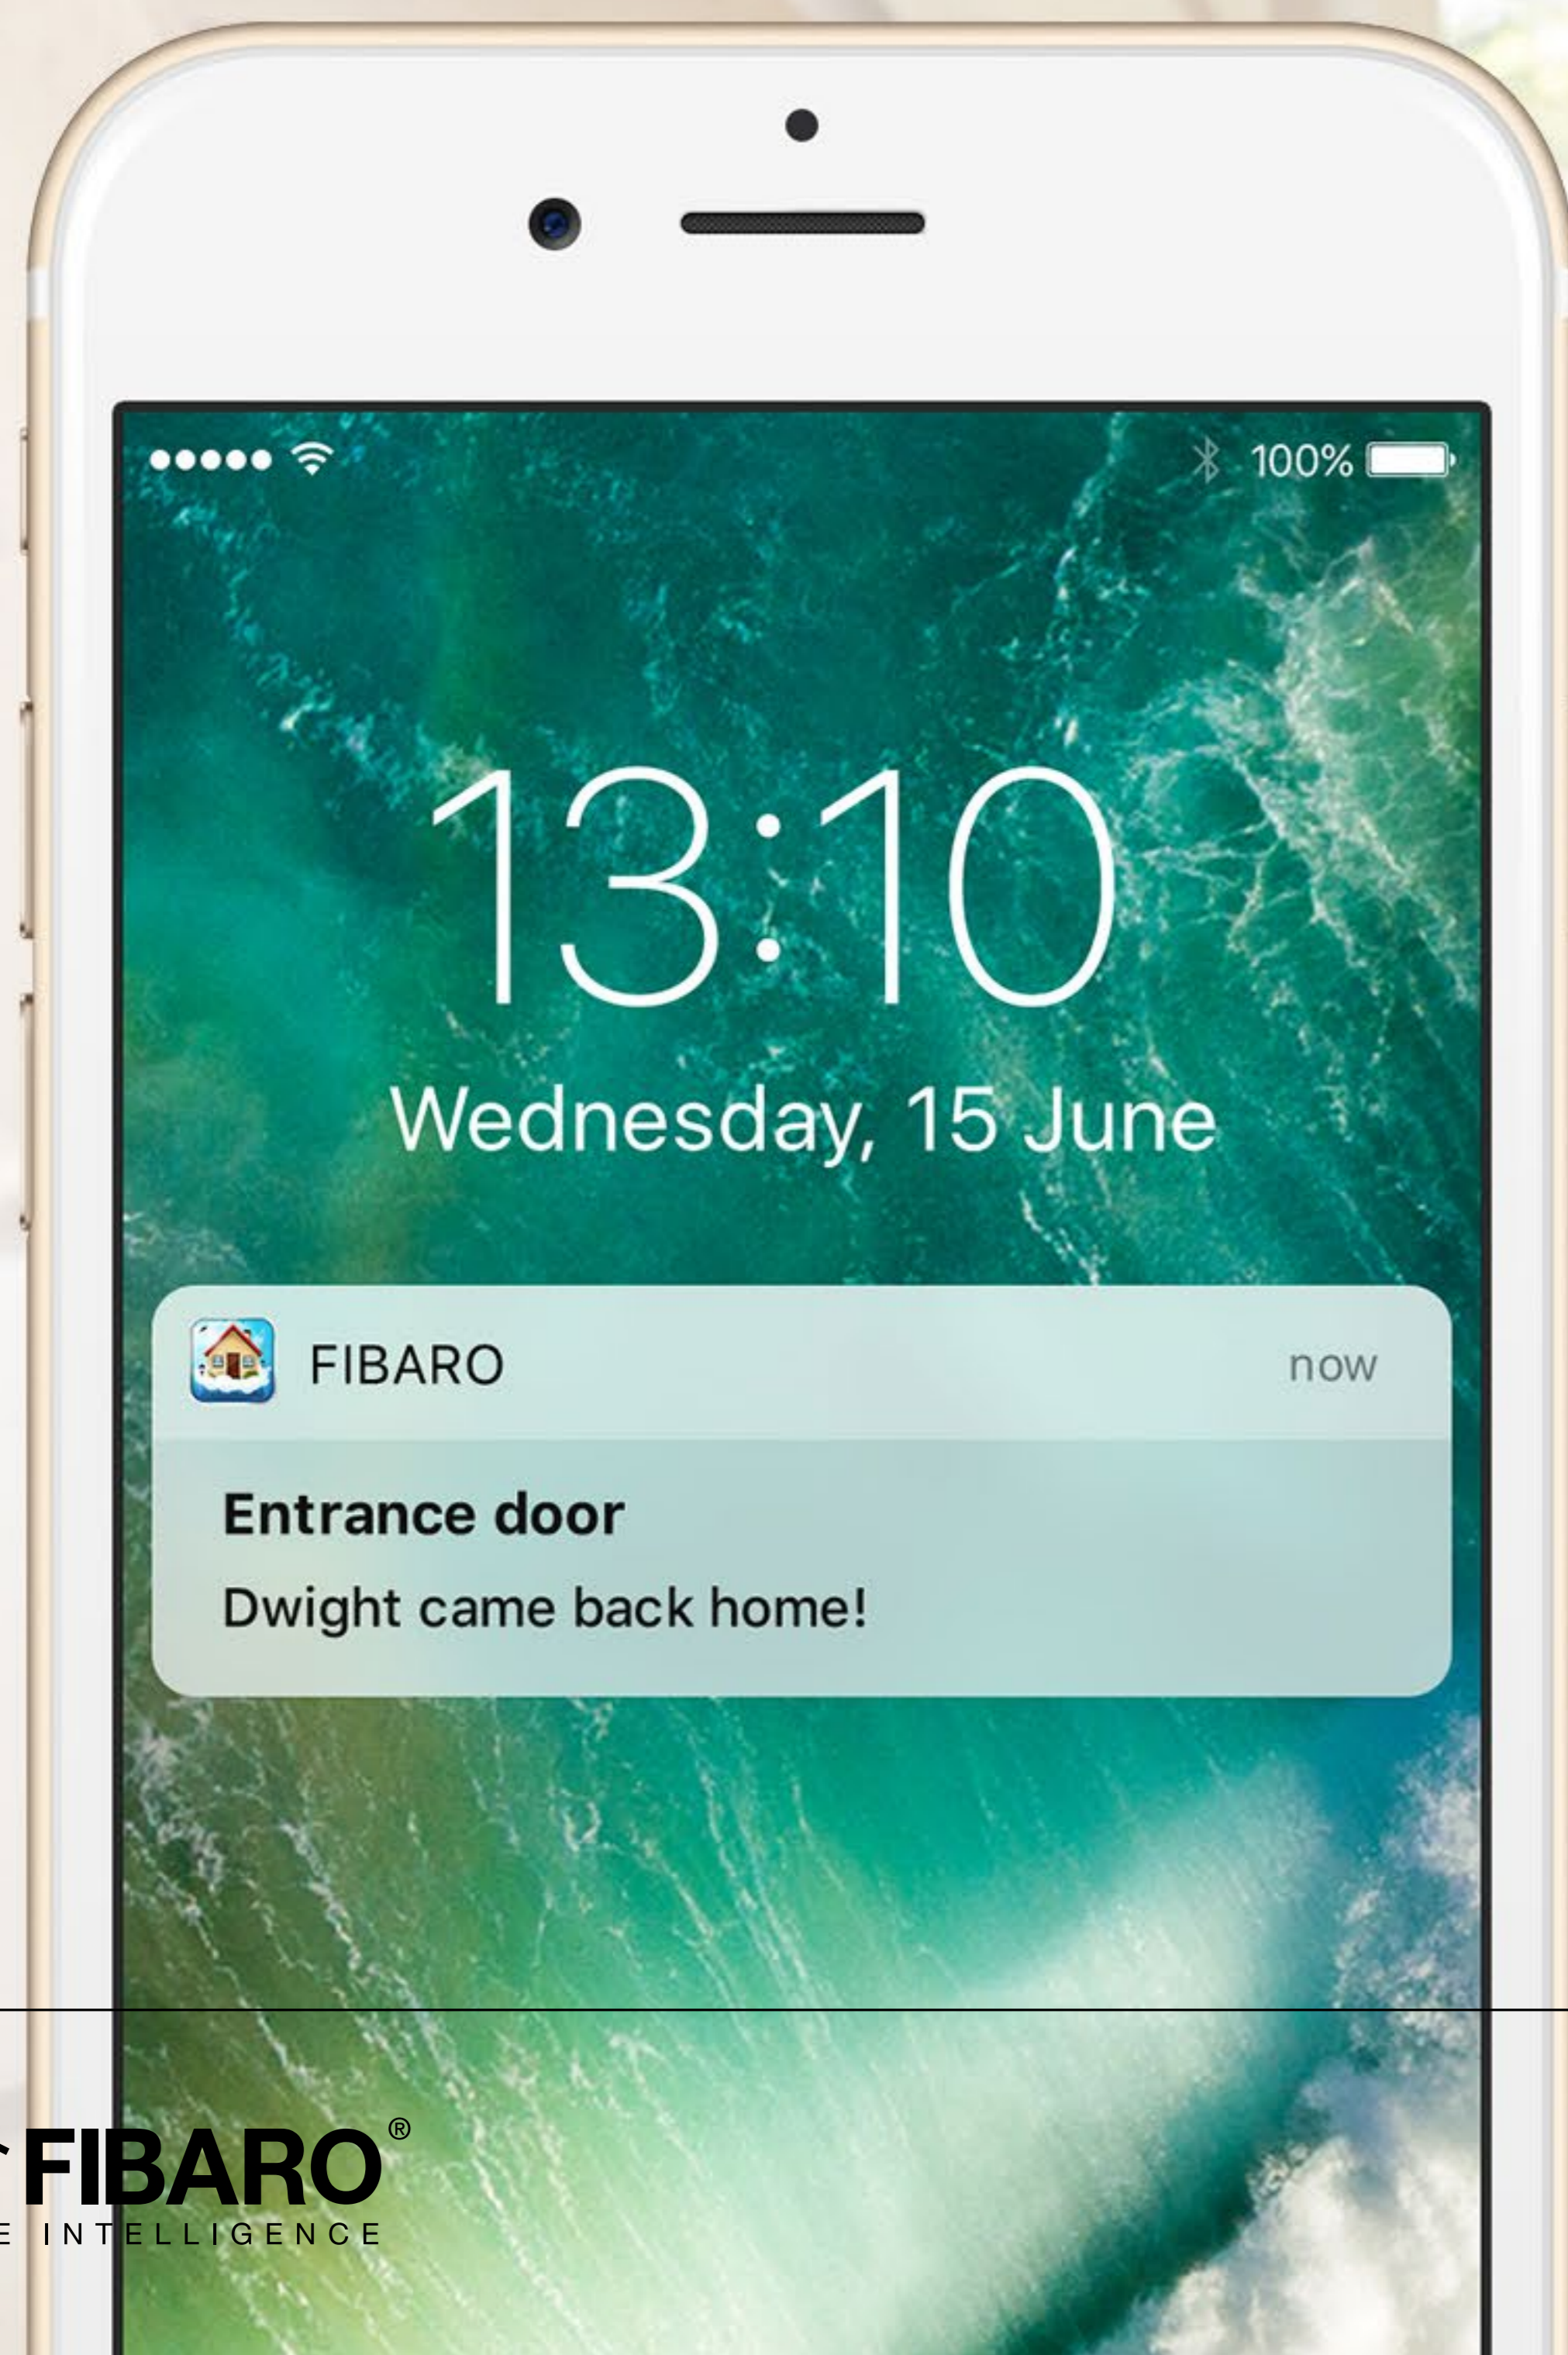

LIGHTS
Turn ON lights in the kitchen.

MULTIMEDIA
Play „Relax playlist“.

YOUR SAFE HOME

By integrating your intercom with FIBARO System, you receive a notification on your phone. You already know when your children safely reached home.

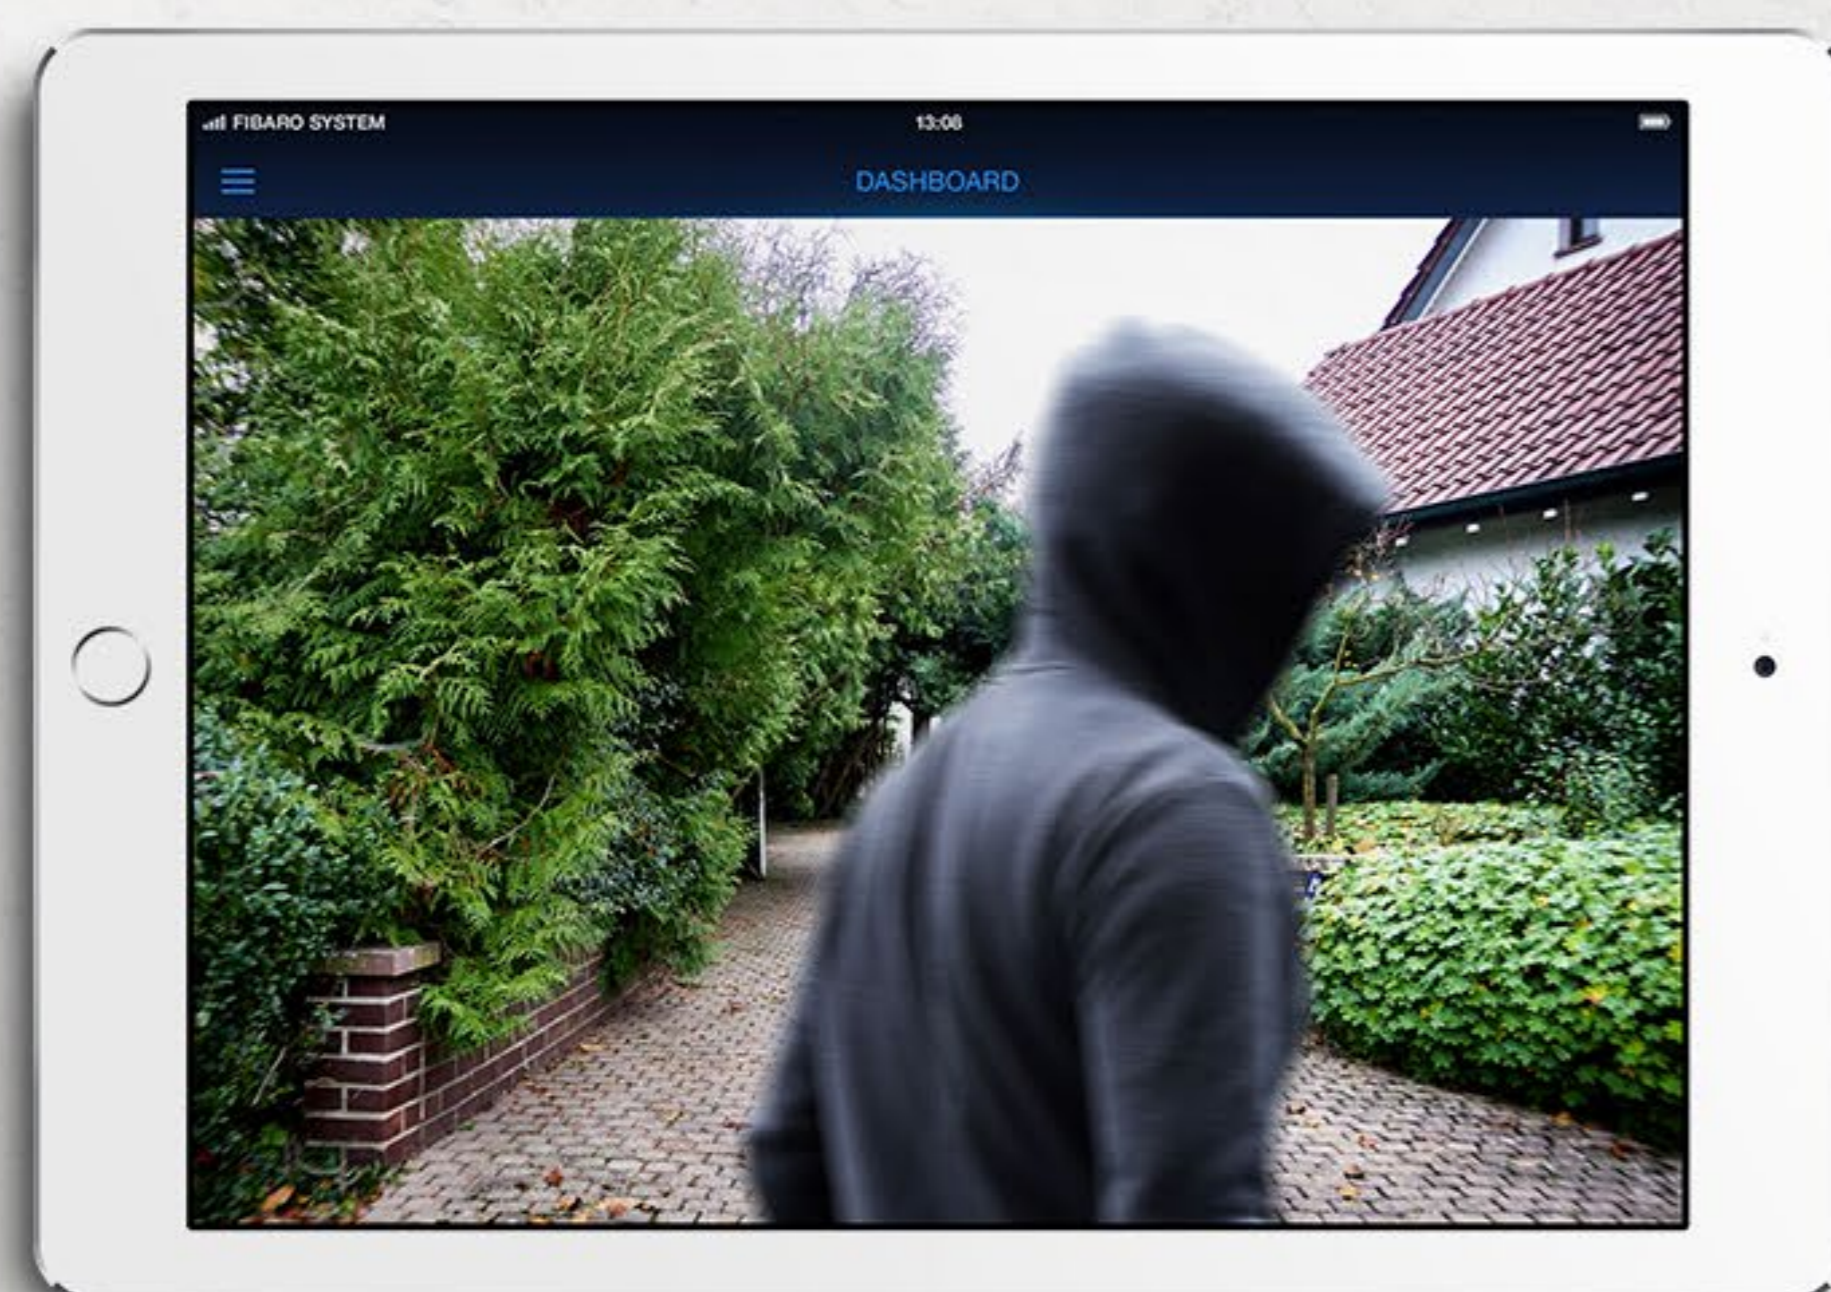

THEFT PROTECTION

Your FIBARO Intercom is secured.
The device has a built-in tamper detector.
Any attempt to steal will be registered.
Your FIBARO Intercom can take a photo
of the intruder and send it to you by email.

YOUR SAFE HOME

You feel more relaxed about your home with FIBARO Intercom. When your device registered an unwanted movement or improperly attempts to enter your PIN, you will be notified immediately. In addition, the FIBARO system will trigger an alarm or any event in your home.

INTEGRATION WITH MONITORING SYSTEM

You can connect your FIBARO Intercom to your video recording system. The device will become another surveillance camera with the ability to intelligently record and playback events. FIBARO Intercom, while working with networked servers of well-known and respected companies, such as Synology or Qnap, allows you to keep recordings of events at given time. This way you can feel safe both at home and outside.

PROFESSIONAL INSTALLATION

Installation of FIBARO Intercom involves several steps. Our specialized and highly qualified installers will help you to install the device. They will also connect the entire FIBARO System if you wish.

ENJOY THE FIBARO INTERCOM

With FIBARO Intercom you see exactly everything, you hear perfectly everything,
and thus know what is happening around your home.

Your comfort and safety is our top priority!

Your home, Your imagination
